Registered Croatian Companies

1. Adriatic Working Dogs llc

Company address: Donji Brinjani 44, 44320, Brinjani (City of Kutina), Republic of Croatia
Website: https://awd.hr/ & https://awd-hr.fr/
Business activity / About the company:
Adriatic Working Dogs LLC (AWD) is a Croatian company specialising in the selection, breeding, and professional training of working K9 dogs for military, police, security, and search and rescue applications. AWD's certified instructors and K9 specialists deliver mission-ready dogs trained to the highest international standards across a broad range of disciplines, including but not limited to explosive detection, patrol, tracking, and personnel protection.
Beyond dog procurement and training, AWD offers a comprehensive portfolio of complementary services: professional K9 seminars and handler training, operational and strategic consulting, humanitarian demining support, and premium working dog nutrition. A key differentiator is AWD's integrated K9–drone tandem system, combining aerial surveillance with ground-level detection to significantly enhance operational effectiveness in complex environments.
AWD serves defence ministries, law enforcement agencies, and security organisations across Europe and beyond, delivering tailored solutions backed by verified field performance and internationally recognised expertise.
Video teaser: https://www.youtube.com/watch?v=mZPbWUTHtA0.

Brief overview of products:
- Dog supply:
  - Green Dogs – high potential, ready for specialised training.
  - Semi-Trained Dogs – basic skills developed, prepared for targeted work.
  - Fully Trained Dogs – operationally ready for immediate deployment
- Seminars:
  - Introductory Seminars
  - Detection Seminars
  - Attack / Protection Seminars
  - Personalised Seminars
- Consultancy Services
  - Breeding program design
  - Training methodology development
  - Selection support
  - Operational training design
  - Planning and establishment of K9 centres, Implementation support
- K9 & Drone Integration
- Mine detection dog (MDD) program
  - Strategic Assessment & Audit
  - IMAS SOP/NSOP Development
  - Operational Implementation
  - MDD Procurement
  - Field Supervision
- K9 Nutrition
  - Planfeedo Performance dog food
  - Planfeedo Puppy dog food

- o Planfeedo Regular dog food
- o Planfeedo Universal dog food

2. AEEG Croatia d.o.o

Company address: Podoštra 3/A, 53000 Gospić, Croatia
Website: https://demiltech.hr/
Business activity / About the company: Production of plastic explosives
Brief overview of products: Production of plastic explosives

Email: dljevar@demiltech.hr

3. A.K.-PROJECT

Company address: Ul. Stjepana Gradića 19
Website: https://androkydex.com/
Business activity / About the company:
A.K.-Project is a Croatian company specialising in the development and handcrafted production of pistol holsters, magazine carriers and various types of tactical equipment made from high-quality Kydex.
It produces precision-made custom Kydex holsters for military, police, sport shooting and hunting use. It brings quality and functionality together.
A.K.-Project is a Croatian brand specialising in the development and production of Kydex holsters and tactical equipment, rooted in practical experience rather than theory.

Brief overview of products:
Kydex is a thermoplastic material that can be shaped around a specific object when heated. It is strong and lightweight, resistant to moisture, impact and abrasion, and durable. The production process includes thermoforming, precision shaping, hand-finishing, assembly and product testing. The company makes products in a range of shapes, thicknesses, colours and textures, tailored to users' needs, with an emphasis on safety, ergonomics and functionality.

4. Amphinicy Technologies

Company address: Damira Timljanovića Gavrana 15, Zagreb, Croatia
Website: www.amphinicy.com
Business activity / About the company:
Amphinicy Technologies provides secure, mission-critical ground segment software for the satellite industry. Its customers include space agencies, satellite operators, equipment manufacturers, mission operation centres and government stakeholders. With more than 28 years of experience and offices in Zagreb (Croatia) and Luxembourg, the company has built a strong portfolio of solutions. Its flagship products are Monica, a modern monitoring and control solution; Blink, a wideband software modem; and ViSAGE, a flexible virtualisation platform that integrates SatCom and 5G-NTN networks.

Amphinicy recently joined the ETL Systems group of companies. ETL is a UK-based designer and manufacturer of RF equipment for critical ground infrastructure. The combined portfolio, which

includes RF, digital, and software solutions, allows ETL Systems and Amphinicy Technologies to deliver integrated end-to-end satellite ground segment solutions to customers worldwide.

Brief overview of products:
Amphinicy offers a portfolio of software products and services designed to optimise satellite ground segment development and operations:

Blink – an ultra-fast, pure-software satellite modem that replaces proprietary hardware with flexible, high-throughput, fully digital ground infrastructure, supporting efficient and cost-optimised communications on COTS platforms.

Monica – a modern, scalable monitoring and control system that ensures reliable, secure ground segment operations and can be extended to monitor other mission-critical infrastructure.

ViSAGE – a virtualised Gateway-as-a-Service platform integrating SATCOM and 5G-NTN networks for seamless, high-speed, low-latency connectivity.

Professional engineering services – consulting, design, implementation, and long-term support based on 25+ years of domain experience in satellite ground segment solutions.

5. CorteCros doo

Company address: Gramača 5F
Website: https://cortecros.com/hr/
Business activity / About the company:
Cortecros is a Croatian provider of advanced corrosion protection, preservation, and protective packaging solutions. The company supports the long-term storage, transport, maintenance, and operational readiness of military, industrial, maritime, and infrastructure assets. For 23 years CorteCros Ltd. has been successful and present with corrosion protection products on Croatian, as well as world market. Together with Cortec corporation, CorteCros Ltd. is providing technical support for Cortec products and services in all industrial fields, especially in military and oil industries, in which CorteCros has a lot of experience.

Brief overview of products:
Cortecros provides advanced corrosion protection and preservation solutions for defence, industry, logistics, maritime, and infrastructure applications. Its portfolio includes VpCI® films, bags, papers, emitters, coatings, cleaners, moisture-control products, ESD-safe packaging, and customised long-term preservation systems for military equipment, vehicles, spare parts, machinery, and sensitive electronic assemblies.
The company's portfolio is designed to protect military vehicles, weapons systems, spare parts, maintenance equipment, electronic assemblies, and strategic stockpiles during storage, transport, deployment, and overhaul.
By combining VpCI® technology with technical expertise and customised packaging systems, Cortecros contributes to reduced maintenance costs, extended equipment service life, improved storage reliability, and sustained operational availability.

6. Duro Dakovic Specijalna vozila d.d.

Company address: Ulica 108. brigade ZNG 40, 35 000 Slavonski Brod, Croatia
Website: www.ddsv.hr
Business activity / About the company:

1. Transport and railway industry
2. Defence industry
3. Mechanical engineering and metal processing

Brief overview of products: www.ddsv.hr

Email: monika.pepic@duro-dakovic.com

7. Elektroda Zagreb

Company address: Rusevje 7, Zaprešić, Croatia
Website: Ezg.hr
Business activity / About the company: Producing consumables for welding (MIG/MAG wires and electrodes)
Brief overview of products:
Wire
Electrodes
Consumables for welding

Email: vjerkovic@ezg.hr

8. GALKO D.O.O.

Company address: Brace Radic 43
Website: www.galko-mps.com
Business activity / About the company:
Founded in 1993 as a small family business, our journey began with a passion for leather products such as purses, bags and wallets.

Over the years, followed by the growth of our company and client portfolio, we've become known for maintaining an uncompromising level of quality and meticulous attention to detail.

The constant evolution of our company has seen investments in new technologies, machinery, and, crucially, skilled employees in both R&D and production.

In 2012 we established a highly specialized segment focused on the research, development, production, and distribution of professional defense, law enforcement, and security equipment – Galko MPS. Our MPS product line includes combat/tactical platforms and components intended for soldiers, police officers, security personnel, and those engaged in duty activities.

We work closely with government institutions and security agencies, offering them a comprehensive range of services aimed at equipping individual personnel with high-quality gear. Some of the institutions that use our products include the Ministry of Interior (MUP), Ministry of Defense (MORH), Customs, Croatian Post, Civil Protection, and many others.

We ensure the quality of our products and raw materials through testing in certified laboratories in Croatia or worldwide. Reports obtained from such laboratories are an essential component of public procurement submissions and provide additional assurance to our clients regarding the safety and quality of the equipment we manufacture.

Our commitment to staying current with market trends and production technologies is evident in our use of laser cutting, specialized laminates, bonded fabric compositions, thermoforming technologies, and production digitalization. These elements contribute to the creation of new products with enhanced functionality and a cost-effective product portfolio.

Brief overview of products:
Tactical and duty backpacks
Tactical and duty pouches
Tactical and duty vests
Tactical and duty bags
Tactical and duty belts
Tactical and duty medical pouches and bags
Tactical and duty holsters
Tactical and duty accessories

Email: matea@galko.com

9. HEMCO d.o.o.

Company address: Ante Starčevića 196b, 31400 Čepo, Croatia
Website: www.hemco.hr
Business activity / About the company:
HEMCO d.o.o. is a Croatian manufacturer specializing in the development, design and production of professional workwear, protective clothing, military and tactical apparel, and specialized personal protective equipment (PPE).

Established in 1992, HEMCO combines over 30 years of experience with in-house product development, modern manufacturing capabilities and certified quality management systems, including ISO 9001, ISO 14001, ISO 45001, ISO and NATO AQAP 2110.

With approximately 250 employees and an annual production capacity of around 300,000 garments, HEMCO supplies customers across more than 10 countries, serving the defence, security, emergency services, energy and industrial sectors.

The company is actively seeking international partnerships, including joint product development, manufacturing cooperation and participation in defence and security procurement projects.

Brief overview of products:
HEMCO develops and manufactures a comprehensive range of professional clothing and protective equipment, with a strong focus on defence, security and demanding operational environments.

Our product portfolio includes military uniforms, combat and tactical clothing, field and service uniforms, ceremonial uniforms, tactical jackets, trousers, combat shirts, softshell garments and specialized protective clothing.

We also offer flame-resistant (FR), multifunctional protective clothing, high-visibility garments, weather-resistant outerwear and specialized apparel for emergency services and industrial applications.

Products can be developed and customized according to customer specifications, operational requirements and applicable European and international standards, supported by in-house design, prototyping and manufacturing capabilities.

Email: mislav.mihalj@hemco.hr

10. Hyperbunker d.o.o.

Company address: Sokolgradska 28
Website: www.hyperbunker.com
Business activity / About the company:
Hyperbunker is a cyber resilience company specializing in resilient data protection and recovery. It develops and protects 100% of data in digital vault that creates physically isolated, offline copies of critical business data. The solution is patented and unique and make technology disruption in protecting backups from ransomware and other cyberattacks and restore data after an incident.

Brief overview of products:
Hyperbunker is an on-premises data vault that creates and stores four full offline copies of an organization's critical data. Data is transferred through a controlled USB-C connection and stored on physically isolated disks that remain powered off outside the archiving process. It is connected online while data stored are always offline, even during transfer or restore data, using double air gapp in both direction.

Email: mladen@hyperbunker.com

11. INKOP

Company address: Zagorske brigade 1, Poznanovec
Website: Www.inkop.hr
Business activity / About the company:
Inkop is one of Croatia's leading manufacturers of specialist footwear for the armed forces, police, civil protection and firefighters. Footwear has been made in Poznanovec, in north-west Croatia, since 1919. Today we carry on that tradition in our own modernised 9,000 m^2 factory, with around 100 experienced employees. We produce tactical, work-safety, trekking and firefighting footwear, and our firefighting boot is the most technically demanding product in our range. Our quality management follows the ISO 9001 standard, and our products carry NATO Stock Numbers (NSN). All models are tested in accredited laboratories and comply with European standards. The entire process, from digital leather cutting to waterproof seam sealing and final inspection, takes place under one roof. We can produce up to 95,000 pairs a year on a single shift, and every pair is 100% made in Croatia. We are a long-standing supplier to Croatian defence, security and civil-protection institutions.

Brief overview of products: Our range covers four product lines: tactical and military boots, work and safety footwear, trekking boots and firefighting boots.

Email: Zoran.curkovic@inkop.hr

12. Jacquard d.o.o.

Company address: Samoborska cesta 256, 10000, Zagreb

Web: www.jacquard.hr

Production
The main activity of Jacquard d.o.o. is weaving, specializing in the production of labels, emblems, flags and similar products. Their product range also includes hats, wool hats and T-shirts under their own high-quality brand, as well as the application of their woven products to these items.
Weaving
Their weaving facility is equipped exclusively with top-quality machines manufactured by Müller, a leading Swiss manufacturer. Their team receives ongoing training to operate this equipment, and only 100% polyester yarn is used in the production process.

Fabric Treatment (Gluing, Pressing, Cutting and Sewing)
Depending on their clients' requirements, fabrics can either be simply cut or further stiffened to achieve the desired finished edge.

In addition to woven products, Jacquard d.o.o. also offers embroidery (machine embroidery) and printing services.

The company's goal is to showcase its clients' logos and designs on everyday items, whether on employee uniforms, sports equipment featuring a prominent sports club crest, or corporate gifts.

E-mail: jacquard@jacquard.hr

13. KAP-KO doo

Company address: PRIJEPOLJSKA 20A. 10040 ZAGREB
Website: WWW.KAP-KO.HR
Business activity / About the company:
We are a headwear manufacturer from Zagreb, Croatia. Our history began in 1866, when the company was founded.
Our product line also includes high-quality embroidery products. We supply uniform caps and hats to the police, state agencies, firefighters and military. All Croatian ministries wear uniform caps and hats made by Šešir or Kap-ko.

Brief overview of products:
We are a professional manufacturer of official hats, caps, baseball caps and work caps.
Our professional team and in-house designers help us ensure on-time delivery and consistent product and service quality.
We aim to meet all our customers' requirements and build long-term partnerships.

Email: ivana@kap-ko.hr

police, and firefighting personnel, including undergarments, shirts, trousers, and windproof and waterproof jackets.

Email: info@odjeca.net

20. P-m.t.c. d.o.o.

Company address: Josipa Broza 88, 40315 Mursko Sredisce, Croatia
Website: www.pmtc.hr
Business activity / About the company: Technical narrow fabrics manufacturer since 1961.
Brief overview of products: Production of military webbings, elastics and cords. Leading producer of digitally printed camouflage webbings, with a full production cycle including weaving, braiding, knitting, dyeing, printing and finishing of narrow fabrics.

Email: vj@pmtc.hr

21. Pointers d.o.o.

Company address: Popovac planina 38
Website: https://pointersguardian.com/
Business activity / About the company:
Pointers Ltd. is a Croatian defence technology company, founded in 2016, developing POINTERS GAARD – an integrated multi-sensor platform for force protection, survivability and situational awareness of military personnel, first responders and critical infrastructure operators. Today's soldier faces low-cost drones, electronic warfare, degraded GNSS, blast, and chemical and radiological hazards. POINTERS GAARD replaces multiple separate devices with one modular architecture that senses, priorities and alerts in real time.

Brief overview of products:
CROME GAARD SMART HELMET

Developed with Šestan-Busch, manufacturer of more than 3 million helmets for 60+ nations, CROME GAARD turns a proven ballistic helmet into a connected sensor node. The compact GAARD CORE (approx. 150 g) combines laser warning, passive RF and acoustic drone detection, torso wound detection, blast exposure logging, CBRN sensing and physiological monitoring into a single Life Score. Directional haptic, light and voice alerts keep the soldier eyes-up.

POINTERS GAARD – ONE SYSTEM, ANY PLATFORM
The same architecture scales beyond the helmet: military vehicles, fixed installations, critical infrastructure, buildings, borders, drones, backpacks, ballistic vests and combat uniforms. Every node shares data across one network, giving commanders a live picture of position, vital status and environmental threats.

KEY FEATURES
Resilient multi-path communications (5G, LTE, Wi-Fi, LoRa, satellite, tactical radio) with AES-256 encryption; dual GNSS for anti-jamming and anti-spoofing PNT; full EMCON capability; AI-assisted decision support; TAK and C2 integration.
European-developed, Non-ITAR, aligned with NATO operational concepts and validated with Croatia's largest research institute, Ruđer Bošković.

Email: nikola.grubisic@pointersguardian.com

22. Rheinmetall Unmanned Vehicles

Company address: Slavonska avenija 22 G, 10000 Zagreb
Website: www.rheinmetall.com
Business activity / About the company:
Rheinmetall Unmanned Vehicles d.o.o. is a technology-driven company specialised in the development and manufacture of advanced unmanned systems designed for operations in hazardous and high-risk environments. Its core portfolio includes remotely operated and progressively autonomous platforms supporting humanitarian and military demining, military engineering operations, CBRN response, and the protection of critical infrastructure. The company's solutions are based on modular and scalable architectures, enabling rapid mission-specific configuration for mine clearance, IED disposal, route clearance, firefighting, and other complex operational requirements. With a strong commitment to safety, reliability, and operational excellence, Rheinmetall Unmanned Vehicles d.o.o. delivers field-proven systems that enhance force protection and reduce human exposure to hazardous situations, serving armed forces, civil protection authorities, and specialised security operators worldwide.

Email: ozren.martinovic@dok-ing.hr

23. RIZ Profesionalna elektronika d.o.o.

Company address: Velika cesta 78/1, 10020 Zagreb (Odra)
Website: https://www.takrad.hr
Business activity / About the company:
RIZ Profesionalna elektronika d.o.o. is a Croatian technology company headquartered in Zagreb, specializing in the development and manufacturing of advanced tactical radio communication systems for demanding operational environments.
The company employs 22 people and is classified as a small enterprise. In 2025, it recorded total revenues of approximately EUR 4.14 million and a net profit of approximately EUR 187,000. Its AA+ credit rating reflects its strong credit standing.
Building on a long-standing industrial heritage, RIZ Profesionalna elektronika continues the tradition of specialized military and police communications associated with the historic RIZ company, founded in 1948.
The company's core product portfolio is the TAKRAD family of tactical radio systems, designed to provide reliable and secure voice and data communications for modern deface and security applications.
By combining engineering expertise, Software Defined Radio (SDR) technology, and in-house development and manufacturing capabilities, RIZ PE delivers flexible, high-performance communication solutions tailored to the operational requirements of its customers.
Beyond product development and manufacturing, the company offers comprehensive technical services, including system installation, integration, modification, maintenance, and user training, providing support throughout the equipment lifecycle.
RIZ PE is committed to technological innovation, product reliability, and long-term customer relationships. The company welcomes opportunities to establish strategic partnerships, expand international cooperation, and develop tailored communication solutions in collaboration with defence organizations, system integrators, and technology partners worldwide.

Brief overview of products:
The company specializes in the development and production of cutting-edge tactical military

SDR communication systems.
Current portfolio includes the TAKRAD SDR family:
• PRR Radios: Advanced soldiers' tactical radios providing secure, localized, and robust communications for dismounted soldiers.
• Vehicular Radios: High-performance, integrated communication units designed for modern military vehicles and command structures.

Email: riz-pe@riz-pe.hr

24. SESTAN BUSCH D.O.O.

Company address: INDUSTRIJSKA ZONA 3
Website: www.sestan-busch.hr
Business activity / About the company:
Šestan-Busch d.o.o. is a Croatian manufacturer of high-quality ballistic and protective helmets, with extensive experience in the development, design and production of advanced head protection solutions for military, law enforcement and security forces.

The company specializes in innovative ballistic protection technologies, combining advanced materials, modern manufacturing processes and strict quality control procedures.

Šestan-Busch supplies protective helmets to military and police organizations worldwide and continuously invests in research, development and improvement of its products to meet the demanding requirements of modern defence and security operations.

Our commitment to quality, reliability, innovation and customer satisfaction has established Šestan-Busch as a recognized manufacturer in the international defence and security industry.

Brief overview of products:
Šestan-Busch offers a comprehensive range of ballistic and specialized protective helmets designed for military, police, special operations and security applications.

Our product portfolio includes:

- BK Series: Ballistic helmets including BK-ACH, BK-ACH High-Cut and BK-3 models, designed to provide reliable ballistic protection, comfort and operational functionality.
- CROME Series: A new generation of advanced ballistic helmets developed with a focus on innovative design, enhanced protection, ergonomics and compatibility with modern tactical equipment.
- Specialized Protective Helmets: Helmet solutions developed for specific operational requirements of military, law enforcement and other security personnel.
- Helmet Accessories: A range of compatible accessories, including helmet covers, suspension systems, retention systems, side rails and other tactical components.

Our helmets are developed to meet demanding international requirements, offering a combination of protection, durability, comfort and operational performance.

Email: sestan-busch@sestan-busch.hr

25. Spar-Tac doo

Company address: Pilanski put 1a
Website: www.spar-tac.com
Business activity / About the company:
SPAR-TAC is a Croatian manufacturer specializing in the design, development and production of high-performance tactical textile equipment for military, law enforcement and professional users in safety industry. SPAR-TAC focuses on tailored solutions, product development partnerships and reliable European manufacturing for professional defence and security markets.

Brief overview of products:
Our product portfolio includes combat uniforms, load-bearing equipment, plate carriers, modular pouches, ballistic protection components and specialized textile systems.
We provide in-house product design, prototyping, testing and manufacturing, combining technical expertise, innovative materials and practical field experience. All products are developed and manufactured in Croatia, EU, with a strong focus on quality, functionality and compliance with relevant military and NATO standards.

Email: info@spar-tac.com

26. SPLENDOR tekstil d.o.o.

Company address: 1a Petrovaradinska
Website: https://splendor-tekstil.hr/en/
Business activity / About the company: Established 27 years ago, our privately owned company features a state-of-the-art production facility with extensive expertise in manufacturing professional functional apparel. We are proud to operate as a licensed manufacturing partner (TML) of W.L. Gore & Associates.
Brief overview of products: We specialize in engineering specialized military and police tactical clothing utilizing advanced GORE-TEX laminates (PYRAD technology).

Email: suzana@splendor-tekstil.hr

27. Visage Technologies

Company address: Ivana Lučića 2A, 10000 Zagreb
Website: www.visagetechnologies.com
Business activity / About the company: Zagreb-based software company licensing proprietary computer-vision technology and providing long-term software engineering and R&D services. Its visage|SDK supports real-time face detection, facial-feature tracking, head-pose, gaze and expression estimation across mobile, desktop, embedded and web platforms. Building on extensive automotive ADAS experience, the company is expanding in robotics and off-highway autonomy, pharma and medtech, and defence and dual-use applications. It seeks industrial R&D buyers, technology companies and system integrators interested in computer vision, AI, custom projects, R&D collaboration, security, VLA systems, UGVs, UAVs and GNSS-denied navigation.

Brief overview of products:

- visage|SDK – Face Track, Face Recognition and Face Analysis

- Arbelle.ai – beauty AI for cosmetic brands ready to personalize shopping, increase conversions, and grow across every channel. Virtual makeup try-on, Foundation Shade finder, Look finder, Beauty analytics.
- Computer vision custom development services
