

Virtual Workshop Croatia-Spain (IFMIF-DONES)

24th February 2023, 10:00 – 13:00

The collaboration between Croatia and Spain for the development of the DONES programme and the construction of IFMIF-DONES facility in Granada was reflected in the signature of a MoU in November 2022. Ministers of both countries signed this Memorandum in the presence of their Majesties the King and Queen of Spain and the President of the Republic of Croatia.

The cooperation between both countries includes the mutual interest of seeking out synergies to take advantage of the industrial opportunities of IFMIF-DONES construction. A special focus is given on high technological developments that will represent a technological lever in the Science Industry sector and other higher value sectors (aeronautics, space, healthcare...).

During this workshop, specific industrial opportunities in IFMIF-DONES will be shown. Also, the experience of Spanish and Croatian companies in the Science Industry sector will be presented in “elevator pitch” mode from interested Spanish and Croatian industries. This will give a general vision of capabilities and experience, as well as the collaboration interests of both countries.

After the presentations, prearranged B2B meetings will take place virtually.
