FORWARD

The guide "Karlovac County – Your Business" partner is intended for potential domestic and foreign investors, entrepreneurs and all those who have contacts with potential investors. Our main idea was to provide information on the possibilities and conditions of investing, incentive measures for investors on one hand and on the other hand to present the Karlovac

County and its corporate subjects as reliable partners for development and the realisation of mutual entrepreneurial projects.

The guide consists of several content chapters. We present the Karlovac County through basic data (location, towns, population) and describe its economic profile (the structure of economic activities, economic indicators, export structure and the most important export products). We give a review of rules and regulations and investment possibilities and incentives. Special emphasis is given to the chapter Location Competitiveness of the Karlovac County where potential investors are given current information on conditions, costs and advantages of doing business in our region, ranging from staff costs, electric energy costs, municipal contributions and dues, municipal infrastructure fees to state and local taxes and contributions.

The bearer of economic activities in the Karlovac County is manufacturing industry which comprises various branches with long traditions and recognized product quality on domestic and foreign markets. Local companies and products as well as the most important representatives of other activities 205 companies ready to cooperation with new business partners are presented in the chapter Offer and Demand of Goods and Services in the Karlovac County. The examples of successful foreign investments are also invitations to future partners.

This overview accompanied by the last chapter containing a Catalogue of Karlovac County Projects of the local community and our entrepreneurs along with the presentation of business zones is a straightforward invitation for investors. It is our intention to strengthen and dynamise investment processes and stimulate new investments in our region and confirm the reputation of our companies and the region as good partners in the common market of the European Union.

In order to ensure its applicability, the guide "The Karlovac County – Your Business partner" has been designed as a multimedia presentation. It is possible to access the guide on Karlovac County Chamber web site and other institution web sites and search further by means of links to the sites of various institutions and companies. Hence, this review is in fact a sort of a summary. The guide is also available in electronic form.

The economy is a very dynamic process, therefore the contents of the guide have to be continuously changed, updated and adjusted, meaning that its electronic version may be different tomorrow, but will be available to entrepreneurs according to the demands of e-chamber which we jointly build.

President of CCE Karlovac County Chamber,
Zlatko Kuzman, Ph.D.

KARLOVAC COUNTY

KARLOVAC COUNTY – BASIC DATA

Karlovac County is situated in central Croatia and represents the connection between continental and coastal Croatia as well as the intersection connecting Europe and Adriatic Coast.

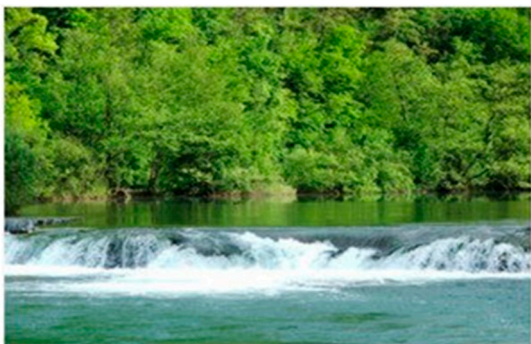

Economic profile is characterized by developed entrepreneurship where processing industry along with manufacture of food and beverages, fabricated metal products, machinery and equipment, rubber and plastic products, wood processing and manufacture of textile are the main bearers of development. Trade and construction take very important place as well, along with significant cultural and natural resources for tourism development. Inside the export structure of the County manufacture of metal products and manufacture of machinery and equipment prevail, and the main export markets are EU and USA.

The County territory encompasses five towns (Duga Resa, Karlovac, Ogulin, Ozalj and Slunj), and seventeen municipalities (Barilović, Bosiljevo, Cetingrad, Draganić, Generalski Stol, Josipdol, Kamanje, Krnjak, Lasinja, Neretić, Plaški, Rakovica, Ribnik, Saborsko, Tounj, Vojnić and Žakanje). County area of 3.622 square kilometers has 128.899 inhabitants.

Karlovac County borders with two neighboring countries: The Republic of Slovenia and the Republic of Bosnia and Herzegovina, and four counties: Zagreb County, Sisak-Moslavina County, Primorje-Gorski Kotar County and Lika-Senj County.

Karlovac County area is not only the link between continental and coastal Croatia, but also the intersection of the most important roads linking Europe to Adriatic coast. One of the most important European corridors Vb goes through Karlovac County, and the County is also a part of middle-European traffic corridor Route 65.

Such position provides significant comparative advantage in doing business and investing, because the most significant business zones in Karlovac County are connected to modern highways and in average only approximately 95 kilometers away from Rijeka harbor, approximately 280 kilometers from Split harbor or 55 kilometers from Franjo Tuđman Airport.

Natural richness is presented by four beautiful rivers: Korana, Mrežnica, Kupa and Dobra. Bathing in clean waters, rowing, rafting and canoeing, hunting in forests from Draganić to Klek and Modruš, hiking paths and trails, bicycle tracks, caves and many other natural values of this area provides various opportunities of rest and recreation which is a good foundation for tourism development. Besides that, monuments of historic architecture like numerous old towns and castles and valuable sacral buildings are especially interesting.

The town of Karlovac is administrative, economic and cultural center of the County. Known as the *Town on Four Rivers*, Karlovac is, due to its economic potential and the proximity of big cities Zagreb and Rijeka, a pleasant place for living and doing business. The town has been brought up in the 16th century as an ideal renaissance town in the shape of six-pointed star, which is visible even today. The construction of

the town began 13th of July 1579 with the purpose of defense of the Ottoman conquests, so consequently the birthday of the Town is being celebrated on that date. The name itself (Carlstadt) Karlovac has got in the honor of its founder, Austrian archduke Karl von Habsburg. (www.karlovac.hr)

THE ECONOMIC PROFILE OF KARLOVAC COUNTY

Even though Karlovac was originally designed as military center, it has become very soon economic center as well, due to its exceptional traffic and geographic location. In the 18th century and the most of 19th century, Karlovac was the most important trade town between Adriatic sea and Danube region. Along the shipping on Kupa river, roads were being constructed: Karolina road Karlovac – Rijeka, Jozefina road Karlovac – Senj and Lujzijana road Karlovac – Rijeka. Due to construction of

Budapest – Rijeka railway, Karlovac has lost the position of trade, reload and market center and has become the transit town. In the late 19th and early 20th century intensive development of crafts and industry has emerged in Karlovac and neighboring towns. This tradition has continued to these modern days.

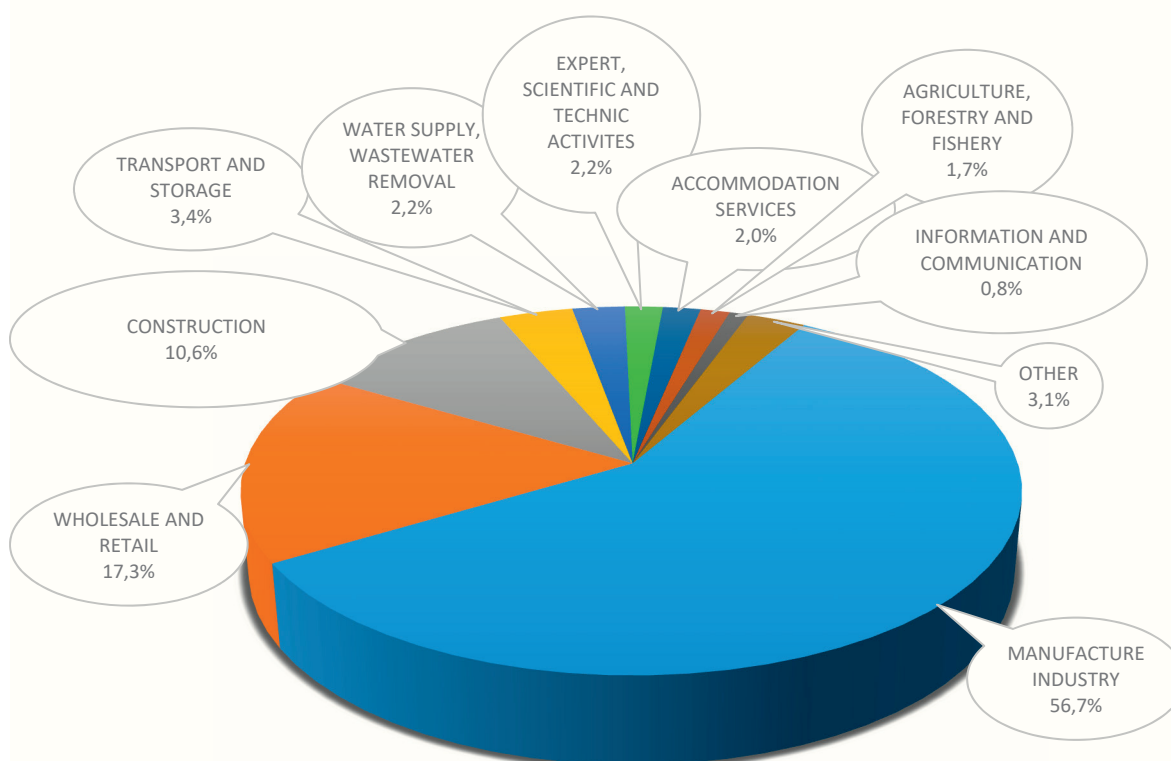

Economic profile of Karlovac County today has been characterized by developed entrepreneurship especially the processing industry which is the main bearer of the development with wide specter of activities and products which quality has daily been proven in joint European and world market.

THE STRUCTURE OF KARLOVAC COUNTY ECONOMY

Over 2.000 companies and 1.800 crafts are doing business in the area of Karlovac County.

The most significant economic branches are the processing industry, trade, construction industry and transport and storage, which provide 88% of overall revenue of the County economy.

The structure of Karlovac County economy according the total revenue

Source: Fina; Processing CCE Karlovac County Chamber

The manufacturing industry is the main holder of technological development, export and employment. Its impact on County's economy is very well shown by the high share in the total Karlovac County revenue, i.e. 56,7%, which is significantly above the level of the Republic of Croatia (24%). Processing industry also comprises the half of total employees in the County.

High quality of job execution, according the schedule and professional staff in a way of use of the most contemporary equipment and material are the reason why construction companies hadn't really felt the crisis in construction sector in recent years. Just the opposite, they can commend themselves with exquisite references in construction of various works and buildings: geotechnical works, industrial facilities and hydro-construction buildings, traffic infrastructure constructions, residential and business buildings and others not only in Croatian, but in the market of neighboring countries.

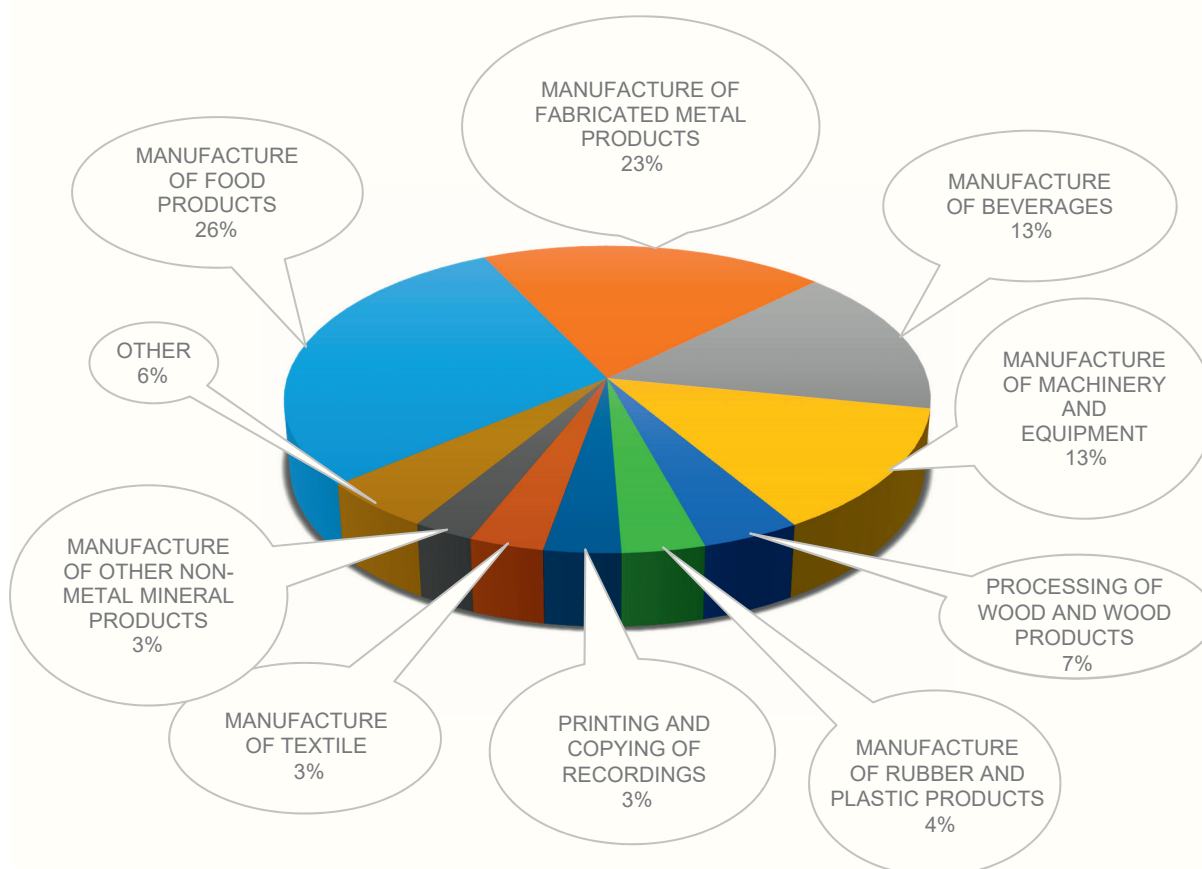

Trade has the highest number of registered companies in Karlovac County, and as well as the activity of transport and storage, its business successes also bases on exploitation of comparative advantage of position in the Republic of Croatia. Besides companies with its headquarters placed in the County, branch offices of foreign retailers represented in Croatia operate here as well.

Alongside mentioned activities, other service activities are not neglected as well. In fact, tourism and hospitality has increasing growth rates due to opening of new capacities and introducing new tourist products in accordance with the increase of continental tourist destination attractiveness for which Karlovac County has perfect preconditions considering its natural and cultural attractions.

THE STRUCTURE OF MANUFACTURING INDUSTRY OF KARLOVAC COUNTY

The most important branches of manufacturing industry, according the generated total revenue, are the manufacture of food products and beverages, manufacture of fabricated metal products, manufacture of machinery and equipment, manufacture of rubber and plastic products, manufacture of wood and products of wood, manufacture of textiles and other.

The structure of manufacturing industry according to the total revenue

Source: Fina; Processing CCE Karlovac County Chamber

The sector of food products manufacture includes production of meat and durable and semi-durable meat products; production of milk and dairy products; bakery products; production and processing of original Ogulin sour cabbage and other. When talking about manufacture of beverages, production of beer established in the middle 19th century, today led by well-known brands of Karlovac beer dominates. Karlovac County food products are qualified with the most significant quality marks, numerous domestic and international awards and successfully respond to aspirations and needs of consumers in Croatian and European market as well.

Business subjects of metal processing industry and engineering in Karlovac County are focused on export, implementation of new technologies, professional staff education, quality system certification, ecologically acceptable production and connection to domestic and foreign manufacturers. Manufacturing program is diverse and can fulfill all of the needs of potential buyers and partners; from quality cutlery and dishes, various types of tool and machine tools, various types of machine processing, metal constructions, bands and bolts and all the way to production of diesel motors and equipment for energetics, special tools and equipment, steam, gas and water turbines, marine and industry pumps and hydro mechanical equipment or production of one of the most quality small arms in the world.

Companies which produce rubber and plastic products in Karlovac County are investing in modernization of technology process, expanding product assortments and export more and more products, but also attract foreign investors for partnership and further investment using its quality. Production program contains various types of plastic package, PVC joinery, production of bathroom and plumbing equipment, pool cover, processing of plastic masses by various techniques and other.

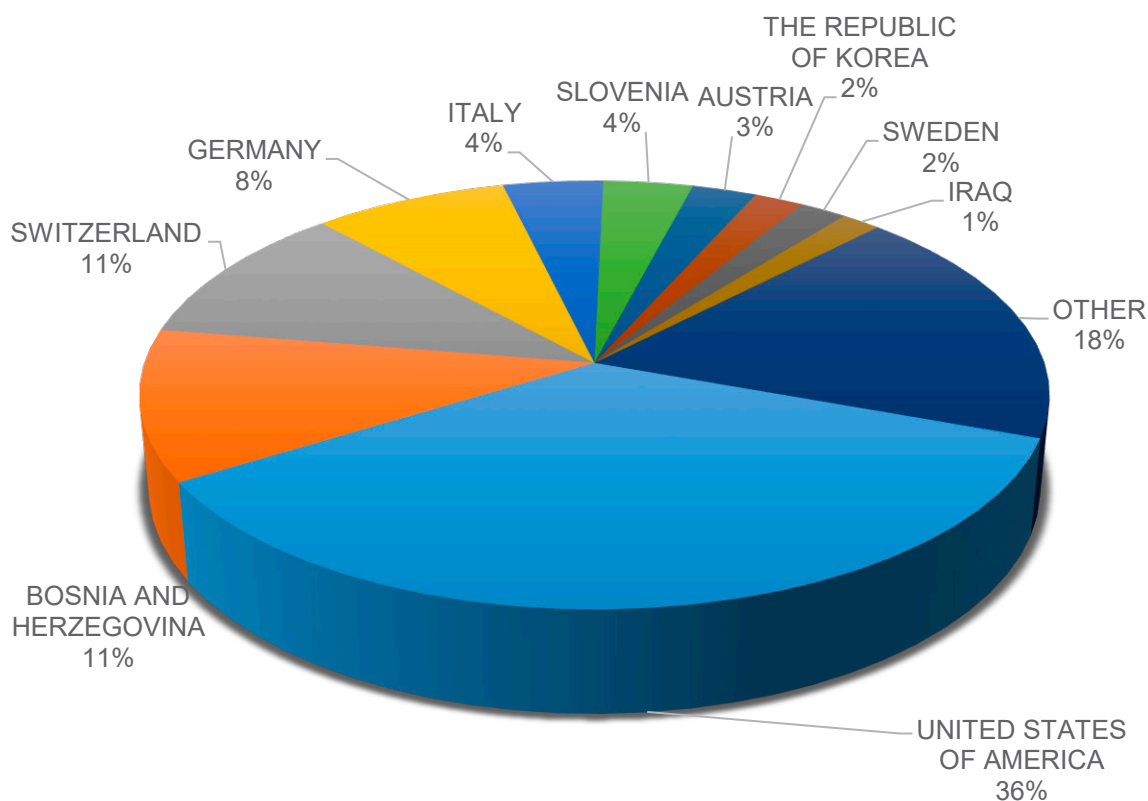

More than half of Karlovac County territory is covered in forest and wood land which provides excellent base for development of wood processing sector which has rich tradition in primary and final wood process. The sector comprises production of sawn timber, packaging, construction joinery, floor material, furniture and furniture parts and other.

Despite of dynamic challenges of the world market, textile industry in Karlovac County has maintained the position of significant exporter by its orientation on foreign markets and innovations in the production process, especially in production of various types of technic fabrics. On the other side, manufacturers of clothes are investing in shaping of new quality products as well, so recognizable fashion brands from Karlovac County companies exist on the market, especially in the field of underwear.

Detailed list of companies classified by activities and description of their products and services assortment can be found in the chapter of Supply and demand of goods and services of Karlovac County economy.

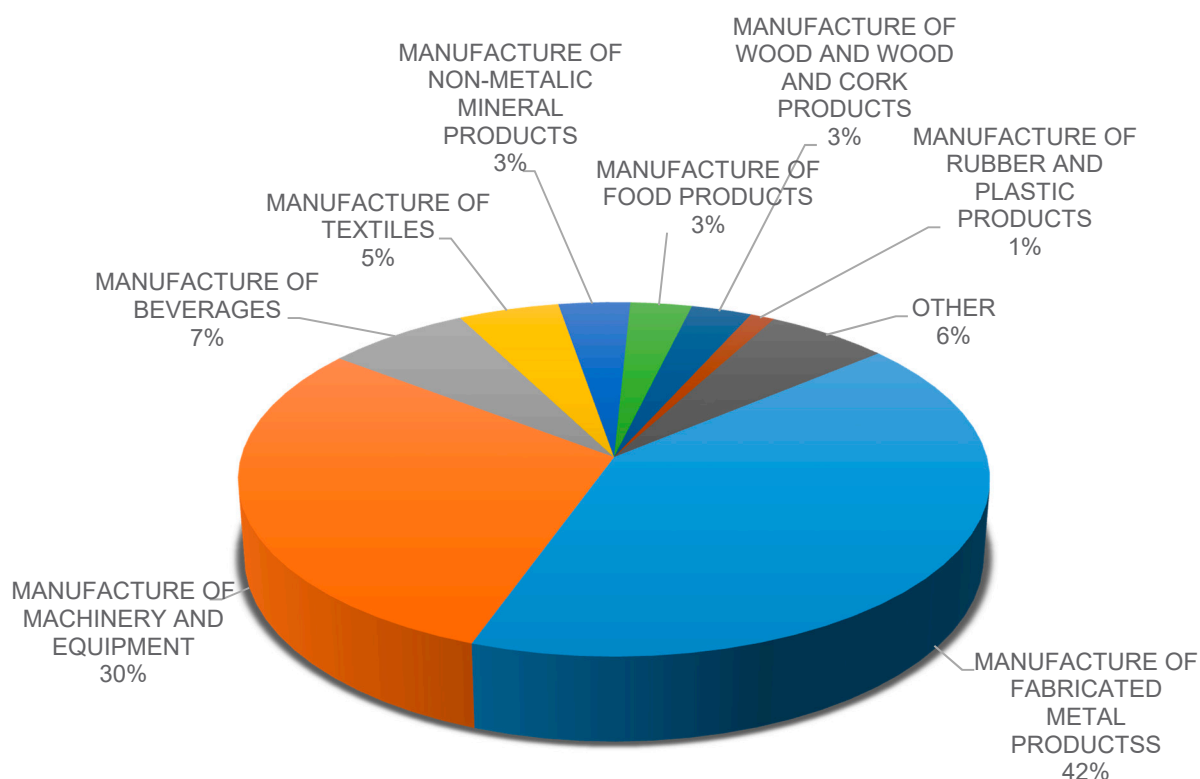

LEADING EXPORT MARKETS

The most important export destinations, according to the criteria of single countries besides USA, leading in export, are European Union countries: Germany, Italy, Slovenia, Austria, Sweden; EFTA countries: Switzerland; CEFTA countries: Bosnia and Herzegovina; OPEC countries: Iraq; other Asian countries: the Republic of Korea and other countries.

INVESTMENT PROMOTION AND BUSINESS BENEFITS

OUT OF THE ACT ON INVESTMENT PROMOTION

Act on investment promotion ([OG 102/15](#)) regulates granting of state aid to encourage investment.

Grants under this Act are related to investment projects and strengthen competitive capabilities in:

- manufacturing and processing activities
- Development and innovation activities
- Business support activities and
- High added value services

Investment, the initial investment, i.e. investment project is an initial investment for micro, small, medium and large enterprises into fixed assets entered in the property of the aid beneficiary:

- In the minimum amount of 50.000,00 euros equivalent to HRK together with creating at least three new jobs for micro entrepreneurs or
- In the minimum amount of 150.000,00 euros equivalent to HRK together with creating at least five new jobs associated with the investment project or
- In the minimum amount of 13.000.000,00 euros equivalent to HRK together with creating at least 10 new jobs for a university degree persons associated with the investment project.

Major investment projects are related to initial investment projects with eligible costs exceeding the amount of 50.000.000,00 euros equivalent to HRK, calculated at prices and exchange rate on the day of state aid allocation.

Long term assets encompasses tangible and intangible assets entered in the property of the grant beneficiary, expressed in the balance sheet of the grant beneficiary. Fixed assets must be in accordance to accounting standards and must be in function for the minimum of five years for large entrepreneurs, or three years for micro, small and medium entrepreneurs, i.e. for the entire time of incentives utilization.

Grant beneficiary is the entrepreneur – natural person (craftsman) who is income tax payer or a company, registered in the territory of the Republic of Croatia which uses grants, i.e. which has been granted by regional supports for initial investment and creation of new jobs, as well as supports for improvement related to investment.

Grant for initial investment is being calculated in a form of percentage of investment value, and is determined on the base of eligible investment costs.

The eligible investment costs are:

- Tangible assets (value of land/buildings and plant/machinery) and intangible assets (patent rights, licenses, know-how) or
- The cost of salaries for created jobs (gross salary for two year period)

The amount of the grant is calculated on the base of tangible and intangible assets or based on salary expenses for newly created jobs whereat higher amount is taken into consideration.

The sources of funding of the investment project must be provided in the minimum amount of 25% of eligible investment expenses by the grant beneficiary itself or from external funding and cannot contain any grant whatsoever.

The investment expenses excluded from calculation base:

- land,
- previously constructed buildings/constructions,
- previously used equipment/machinery.

The amount of grant = calculation base x maximum intensities

Maximum intensity	Large enterprises	Medium enterprises	Micro and small enterprises
	25%	35%	45%

The minimum period of preserving of investment and created jobs associated to the investment is 5 years for large enterprises, and 3 for small and medium enterprises, and the minimum of the grant implementation period.

Authorized ministry is Ministry of Economy, Entrepreneurship and Crafts.

Application for authorization of status of grant beneficiary is submitted before initiation of works on the investment project, i.e. before the beginning of investment project.

The classification of entrepreneurs according the Schedule I. of the Commission Regulation (EU) nr. 651/2014 dated 17th of June 2014.

Category of entrepreneur*	Number of employees	and	Revenue	or	Total asset
Micro	< 10		≤ 2 mil. €		≤ 2 mil. €
Small	< 50		≤ 10 mil. €		≤ 10 mil. €
Medium	< 250		≤ 50 mil. €		≤ 43 mil. €
Large	≥ 250		> 50 mil. €		> 43 mil. €

* when classifying enterprises one should also consider affiliated enterprises

Types of incentives:

- Tax incentives for micro entrepreneurs,
- Tax incentives for small, medium, and large entrepreneurs,
- Incentives for justified expenses of created new jobs associated to the investment project
- Incentives for justified expenses of improvements associated to the investment project
- Incentives for:
 - Development and innovation activities,
 - Business support activities and,
 - High added value services,
- Incentives for capital expenses of the investment project,
- Incentives for labour intensive investment projects,
- Incentives for investment in the minimum amount of 13.000.000,00 euros equivalent to HRK with the criteria that the minimum of 10 new University degree level jobs related to the investment project are created
- Incentives for insurance of fixed terms of business
- Investment incentives
- Fifty-fifty incentive
- Grace period to pay tax liabilities

Tax incentives for micro entrepreneurs

The amount of investment*	Number of new jobs created	Profit tax rate	The period of incentive usage	Minimum preservation of investments and jobs
≥ 50.000 €	≥ 3	10%	5 years	3 years

*micro entrepreneurs alone can realize incentives yet for the amount of 50.000 euros

Tax incentives for small, medium and large entrepreneurs

The entrepreneur can realize 50%, 75% or 100% deduction of profit tax rate depending on the amount of investment, category of entrepreneur and number of new jobs created as a result of investment.

The amount of investment	Requirement for new jobs created	Profit tax rate*	Incentive implementation period	Minimum preservation of investment and jobs**
0,15 – 1 mil. €	≥ 5	10%	10 years	3 years
1 – 3 mil. €	≥ 10	5%	10 years	3 years
> 3 mil. €	≥ 15	0%	10 years	3 years

* 20% of profit tax rate is being deducted for 50%, 70% and 100%, depending on the amount of investment

**the period of preservation of the investment and jobs must be the minimum of the incentive implementation period

Incentives for eligible costs of new jobs associated to the investment

The entrepreneur, the bearer of incentives, who ensures creation of new jobs related to the investment project can realize non-refundable financial aid for eligible costs of creation of new jobs and the amount depends on the unemployment rate in the county in which the investment is carried out.

County unemployment rate	The amount of incentive (the percentage of two-year gross salary) Per created job
Up to 10%	Up to 10%, i.e. up to 3.000 €
10% - 20%	Up to 20%, i.e. up to 6.000 €
over 20%*	Up to 30%, i.e. up to 9.000 €

*Karlovac County – registered unemployment rate 24,0% - average in 2015

The holder of incentive measures will be granted 100% of the incentive amount if the employment is related to:

- Unemployed person who has been registered in the unemployment register of the Croatian Employment Service for the minimum of three months, or
- person up to 25 years of age, without profession, assisted profession or vocational profession, first time employee, not registered in the unemployment register, or
- person up to 29 years of age, with high school or university degree, first time employee, not registered in the unemployment register of Croatian Employment Service, or
- person up to 29 years of age who is registered in the unemployment register of Croatian Employment Service within the period of 90 days of graduation day, the end of regular high school education or person without profession when ended elementary school, or
- person whose employment contract has been cancelled due to launch of insolvency proceeding.

If the employment procedure does not fulfill the conditions mentioned above, 40% of the amount of incentive will be granted.

Incentive for labour intensive investment projects

Non-refundable financial aid from the table above (eligible costs of new jobs associated to the investment) will be increased for certain amount of percentage depending on the number of new jobs created for labour intensive investment projects.

Incentives for labour intensive investment projects		
The number of new jobs		
≥ 100	≥ 300	≥ 500
The increase of incentive for creation of new jobs (from the previous table) in:		
+ 25%	+ 50%	+ 100%

The support for eligible expenditures of training associated to the investment project is granted according the regulations on state aid for training.

Eligible expenditures are:

- trainers personnel costs, for the hours during which the trainers participate in the training,
- trainers' and trainees' operating costs directly related to the training project such as travel expenses, materials and supplies directly related to the project, depreciation of tools and equipment, to the extent that they are used exclusively for the training project; accommodation costs are excluded,
- costs of advisory services associated to the training project,
- trainees' personnel costs and general indirect costs (administrative costs, rent, overheads) for the hours during which the trainees participate in the training.

The aid intensity shall not exceed 50% of the eligible costs and it may be increased up to the maximum aid intensity of 70%:

- by 10% if the training is given to employees with disability and
- by 10% if the incentive is granted to medium sized entrepreneur and
- by 20% if the incentive is granted to small and micro sized entrepreneur.

Incentives for development and innovation activities, business support activities and activities of high added value services

Extra incentives in a form of increase of incentive for the expenses of newly created jobs or non-refundable financial support for purchase of equipment/machines are granted for specific business activities shown in the table.

The type of investment project	Development and innovation activities	Business support activities	High added value services
The increase of incentive for new jobs expenses in:	+ 50%	+ 25%	+ 25%
Non-refundable support (shown as the percentage of eligible costs for purchase of equipment/machines)	Up to 20% for purchase of high technology equipment/machines (maximum of 0,5 mil. €)	-	-

Activities of development and innovation focused on development of new ones and improvement of existing ones: products, production lines, production process, production technologies.

Activities of business support are carried out by: customer/user contact centers, detached business activity centers, logistics and distribution centers, centers for development of information and communication system and software.

Activities of providing high added value services include: creative services, catering and tourist services, management, consulting and educational services and services of industrial engineering.

The incentives for capital expenditures of investment project

Non-refundable financial support can be granted for capital expenses of a minimum of 5 million euros valuable investment project and if minimum of 50 new jobs related to the investment project are created, within the period of 3 years after the end of construction.

The amount of investment	Number of new jobs	Maximum duration (in years)	Profit tax rate
> 5 mil €	50	10	0%

County's unemployment rate	The level of support (shown as % of capital expenses)
10% - 20%	10% - maximum of 0,5 mil. €
over 20%	20% - maximum of 1 mil. €

Capital expenses for which non-refundable support is granted:

- costs of construction of new facility, industrial plant or catering and tourist facility
- costs of new machinery, i.e. production equipment purchase

The share of investment in machinery, i.e. production equipment must be the minimum of 40% out of total investment value, and the minimum of 50% out of purchased machinery, i.e. production equipment must be high technology equipment.

Incentives for investment of minimum amount of 13.000.000,00 euros equivalent in HRK with minimum 10 new jobs created for people with university degree associated to the investment project.

One or more of bellow mentioned incentives can be granted for start-up investment into tangible and intangible assets of newly established company in the minimum amount of 13.000.000,00 euros equivalent in HRK, with the minimum of 10 new jobs created for people with university degree related to the investment project. The Agreement on project preparation and implementation can also be concluded.

Incentives which can be granted based on the Agreement are:

- Incentives for insurance of fixed business conditions: co-financing up to the amount of subtraction of tax obligations and obligations based on contributions determined according to regulations valid at the time of submitting the application for authorization of grant beneficiary status according to the Act on investment promotion and tax obligations and obligations based on contributions according to regulations valid at the time of these obligations calculation, for the period of 10 years from the year of the beginning of the investment.
- Investment incentives: co-financing of the fragment of the amount of tax obligation of incentive beneficiary towards the State except Added Value Tax, i.e. fragment of the amount of contribution payment obligation for the period of 10 years from the year of the beginning of the investment.

- Incentives fifty - fifty: co-financing up to 50% of revenue tax payment obligation, except Added Value Tax, for the period of three years from the beginning of the investment, without the interests.
- The grace period of tax obligations payment: loan for tax obligations payment, except Added Value Tax, for the period of three years from the beginning of the investment, without the interests.

REGULATION ON INVESTMENT PROMOTION ([OG 31/16](#))

The Regulation is applicable on entrepreneurs – natural persons (craftsmen), who are income tax payers or companies, registered in the territory of the Republic of Croatia, who intend to use investment incentive, according to the Law.

The Regulation prescribes:

- General terms
- Form and obligatory application content
- Procedure of application, granting and incentive use
- Obligatory content of annual report on investment project implementation and use of incentives

The application is submitted in forms prescribed by this Regulation.

Annexes:

1. Application form for use of incentives (OP-1)
2. General data on the applicant for the use of incentive (OP-2)
3. Description of the investment project (OP-3)
4. Specification of eligible costs of the investment project (OP-4)
5. Specification of finance sources for the investment project (OP-5)
6. Specification of equipment which enters eligible costs of the investment project (OP-6)
7. Specification of new jobs creation and trainings associated to the investment project (OP-7)
8. Effects of eligible costs of investment project on the economy of the Republic of Croatia calculated on the base of cost/benefit analysis (OP-8)
9. Use of investment incentive – Annual report (GI-1)
10. Joint statement

Besides the Application following documents and data must be enclosed:

- Statement of the applicant on the registration in income tax system, i.e. on the obligation of income tax payment, in case when applicant is natural person - craftsman
- Joint statement, prescribed in the Appendix 10,
- Business plan for the period of five years, along with the projection of financial reports (balance sheet, profit and loss account),

- Valid construction permit, or other official document which approves construction, when constructions are built according the regulations which regulate space arrangement and construction,
- For constructions where construction permit is not being issued according the special regulation
 - a) for constructions that can be constructed without the construction permit, according the main project, the main project in PDF format
 - b) for constructions that can be constructed without the construction permit and the main project, technical description of planned works in PDF format.

The Applicant must submit other data necessary to evaluate application adequacy as well, at the request of the competent Ministry.

The Applicant submits the application to the Ministry under which jurisdiction the investment belongs according to the Law.

[The Ministry of Economy, Entrepreneurship and Crafts](#), is amenable for micro, small and medium enterprises as well as large enterprises.

The examples of calculation of investment incentives can be performed by [incentives calculator](#) on the web page of [the Agency for investments and competitiveness](#) where [workflow of incentives application procedure](#) can also be found.

OUT OF THE ACT ON AREAS OF SPECIAL STATE CONCERN

The Republic of Croatia has determined criteria under which the status of the area of special state concern is being assigned to local self-government units, towns, municipalities and settlements with war destruction consequences and difficulties of demographic and economic development.

The backwardness in economic, social, demographic and total development of areas of special state concern is the result of numerous factors and their complex interaction.

The first group are town and municipality areas that were occupied during the War on Independence and are located directly along the state border, and town or municipality center is no more than 15 km of airline far from the border and has no more than 5.000 residents according the Census from the 1991, as well as municipalities and towns of Croatian Danube region.

The first group in Karlovac County comprises town of Slunj and municipalities: Cetingrad, Rakovica and Vojnić.

The second group are areas of towns, municipalities and settlements which were occupied during the Independence war, and are not the part of the first group.

The second group in Karlovac County comprises municipalities: Barilovići, Josipdol, Krnjak, Lasinja, Plaški, Saborsko, Tounj.

Settlements: Banska Selnica, Banski Moravci, Blatnica Pokupska, Brezova Glava, Brežani, Brođani, Cerovac Vukmanički, Donja Trebinja, Donji Sjeniĉak, Gornja Trebinja, Gornji Sjeniĉak, Gornje Mekušje, Ivanković Sela, Ivošević Selo, Kablar, Kamensko, Klipino Brdo, Kljaić Brdo, Knez Gorica, Lipje, Manjerovići, Okić, Popović Brdo, Ribari, Sajevac, Skakavac, Slunjska Selnica, Slunjski Moravci, Turanj, Tušilović, Udbinja, Utinja, Vukmanić (Karlovac).

The outset in the definition of criteria for creation of system for determination of the underdeveloped areas were the criteria which are being applied in the European Union when implementing the structural policy of the Union.

The third group of the area of special state concern comprises municipalities that are rated as underdeveloped parts of Croatia according the procedure of evaluation based on three development criteria:

- 1.) the criteria of economic development refers to definition of areas underdeveloped in economy, and is measured by indicators: the income of residents, revenues of local self-government and other available indicators;
- 2.) the criteria of structural difficulties refers to definition of areas with distinct problems of unemployment, industrial and agricultural restructuring, and is measured by indicators: employment and unemployment, special indicators of development of industrial, urban and rural areas and other available indicators;
- 3.) the demographic criteria refers to definition of areas with especially adverse demographic indicators, and is evaluated/measured by indicators: population density, general population trend, vital index, age and education structure of the population and other available indicators.

Areas of special state concern in Karlovac County according the groups:

Based on the criteria of underdevelopment, the third group in Karlovac County comprises municipalities: Bosiljevo, Generalski Stol, Netrećić, Ribnik.

[\(Act on Areas of Special State Concern OG 86/08, 57/11, 51/13, 148/13, 76/14, 147/14, 18/15\)](#)

INCENTIVE MEASURES AND BENEFITS

The amount of income tax payment exemption is determined according valid de minimis regulations.

Indefinite period of time within the terms of employment is considered if employee was employed by the tax payer for at minimum of nine months within the tax period and resided in the area of special state concern or in the area of city of Vukovar.

The manner of tax relief realization is determined according the Regulation on Manner of Business Activity Tax Reliefs Realization in the area of special state concern based on the valid Act.

[\(Ordinance on the manner of tax relief realizing for the conduction of activity in the area of city of Vukovar and areas of special state concern OG 157/14\)](#)

[\(Act on Income Tax OG 115/16\)](#)

[\(Ordinance on Income Tax OG 10/17, 128/17\)](#)

Under the Article 28.a of the Act on Profit Tax and under the Article 55. Of the Act on Income Tax, tax relives for tax payers who perform independent activities are regulated.

Tax payers who perform activities in the areas of local self-government units classified in the first and second group according the development index and in the area of Vukovar city have the right on tax relief on profit tax i.e. income tax.

Certificates on the right to tax relief in a sense of state de minimis support, upon previous request, are issued by the Ministry of Regional Development and European Union Funds.

The book on Regulations on the manner of achieving the tax relief for performing activities in the area of city of Vukovar and aided areas determines that profit tax payers are obligated to submit the request on state de minimis support grant until 15th of March of the current year to the Ministry of Regional Development and European Union Funds. Income tax payers are obliged to submit the request on state de minimis support grant until the 28th of February of the current year for the previous year. The request is submitted in the form POOD-PPGV.

OUT OF THE ACT ON REGIONAL DEVELOPMENT

The policy of regional development means complete and coordinated collection of goals, priorities, measures and activities focused on encouragement of economic growth and overall increase of quality of life, according the principles of sustainable development focused on the long term decrease of regional differences.

The goal of regional development policy is contribution towards social and economic development of the Republic of Croatia, in accordance with the principles of sustainable development, by creation of conditions which will provide strengthening of competitiveness and realization of own development potentials to all parts of the country.

Act on Regional Development ([OG 147/14, 123/17](#)) focuses on goals and principles of the management of regional development of the Republic of Croatia, methodical documents of regional development policy, bodies authorized for regional development management, assessment of local and regional self-government units development level, the manner of establishing urban areas and areas of special state concern, encouraging of areas of special state concern development, implementation, monitoring and reporting on implementation of regional development policy for the purpose of efficient as possible EU funds exploitation. Development of areas of special state concern ensures support to all areas with social and economic development difficulties for increase and optimum usage of their development potential.

The main goal is contribution to more evenly regional development by assisting areas of special state concern to achieve faster social and economic development and that way decrease the underdevelopment compared to other parts of the Republic of Croatia.

Evaluation and classification of local and self-government units based on the level of development

Evaluation of level of local and regional self-government units development is based on the development index

Indicators for the calculation of development index, the calculation of development index value, the share of each indicator in overall value of development index is determined by the Regulation of the Government of the Republic of Croatia. The procedure of evaluation of development level of local and regional self-government unit is conducted by the Ministry authorized for regional development sector based on the development index. The evaluation of development level is conducted every three years.

Development index is calculated based on the following indicators:

- Unemployment rate,
- Income per resident,
- Budget revenues of local and regional self-government units per resident,
- General demographic trends,
- Education rates,
- Aging index

Local (regional) self-government units are classified according the development index into four groups, depending on the value of development index in relation to Croatia's average. The classification of local (regional) self-government units according the development level is conducted every three years according the evaluation.

Likewise, local self-government units are classified according the development index into eight groups and the classification is conducted every three years.

AIDED AREA

Aided areas of the Republic of Croatia are areas which are based on the development index, evaluated as underdeveloped in relation to national average and its development needs to be additionally encouraged.

Aided areas are defined in the level of local (regional) self-government units.

The aided area status can get:

- Local (regional) self-government unit classified as the first or second group
- Local self-government unit classified as the first or the first, second, third or fourth group

The Decision on Classification of Local and Regional Self-government Units according the development index ([OG 158/13](#), [OG 132/17](#)) is adopted by the Government of the Republic of Croatia under the proposal of the Ministry, based on the development index.

The Ministry is continuously monitoring the level of development of local and regional self-government units.

According the Law special state concern area are all the area that have development index under the average of the Republic of Croatia i.e. first and forth group of local self-government units and first and second group of regional self-government units.

LOCATION COMPETITIVENESS OF KARLOVAC COUNTY

The decision on capital investment in specific economic sector in specific national and regional territory is based, among other, on expenses that are defined by decisions of national and local government and are very important for the calculation of capital investment profitability.

The term of local competitiveness signifies expenses and potential effects that specific business environment provides to interested investor, and is defined by all the expenses and benefits that are provided on certain administrative area and by the competence of the work force, by the level of development of traffic and energy infrastructure and other.

Besides the mentioned, the attractiveness of the location is also affected by the so called friendly environment of the local community, that is the overall impression that the entrepreneur is welcome and the local government and institutions are doing everything within its possibilities to provide faster and more quality realization of the investor's initiative. In other words, entrepreneur is being approached as partner in accomplishing the joint goal - the increase of number of employees, the increase of economic activity of the region and to achieve higher level of local community prosperity.

The educational infrastructure which includes the network of secondary schools, private educational institutions and the University represents powerful potential that can crucially affect development possibilities of the region. Modern economy which is based on knowledge uses with good reason the phrase "the industry of education", where the word industry refers to the model of education which follows contemporary trends on all levels, formally and informally, full time and part-time, and offers the most recent technical, marketing and other information to the entrepreneurs in order to strengthen the ability of its staff potential.

Encouraged by numerous inquiries of potential investors, in this material we present named expenses with the intention of emphasis of benefits that are offered in the Karlovac County to the investor.

Expenses and price lists valid just before the publishing of this material are presented and are as such submissive to changes.

One more very important remark – projects that are extremely important for the development of the local community and the County, definitely deserve special approach so such projects can become the subject of special agreement with the investor.

1. STAFF COSTS

1.1. Employee's salary

Employer is obliged to calculate and pay a salary, no later than fifteenth day of the month for the previous month, unless is otherwise determined by the collective agreement or employment contract.

At the payment of salaries, all statutory contributions, as well as income tax and local income tax must be simultaneously calculated and paid. Salary mustn't be paid in cash.

Salary is being paid in the amount determined by the collective agreement, employment ordinance, and employment contract.

The employer cannot pay salary amount lower than the minimum wage amount which is being determined by the Government of the Republic of Croatia through the Regulation based on the Minimum Wage Act, and full time salary is determined for the period from 1st of January till the 31st of December 2018 in the gross amount of 3.439,80 HRK per month ([OG 122/2017](#)).

Gross salary amount is being increased for every completed year of service by 0,5 percentage points.

The employer is obliged to calculate and pay 20,00% of contributions of the gross salary:

- 15% - retirement contribution pillar I (generational solidarity)
- 5% - retirement contribution pillar II (individual capitalized savings)

The employer is also obliged to calculate and pay 17,20% contributions on the gross salary:

- 15% - health insurance contribution
- 0,5% - occupational health contribution
- 1,7% - employment contribution

The employee is obliged to pay personal income tax and local income tax, depending on the amount of monthly income after deduction of contribution and personal deduction, i.e. the minimum of 3.800,00 HRK per month, and is increased depending of the number of children and other dependant family members and level of invalidity. Calculated income tax is reduced by 50% for persons who have residence in the assisted area in the 1st group considering the development level.

In accordance to The Act on Income Tax ([OG 115/2016](#)), income tax is paid as follows:

- 24% on monthly tax base up to 17.500,00 HRK,
- 40% on monthly tax base over 17.500,00 HRK.

The local income tax rate is being determined by Decision of towns and municipalities:

- Karlovac: 12%
- Duga Resa: 10%
- Ogulin: 10%
- Ozalj: 10%
- Slunj: 5%
- Kamanje: 10%
- Rakovica: 8%
- Krnjak: 8%
- Ribnik: 5%
- Žakanje: 0 %
- Vojnić: 7,5%
- Other municipalities: 0%

EXAMPLE: Employer's expense on salaries in town of Karlovac

Seq.nr.	DESCRIPTION	EXAMPLE I	EXAMPLE II	EXAMPLE III
1.	GROSS SALARY	10.000,00	8.000,00	3.439,80
2.	- retirement insurance (pillar I): 15%	1.500,00	1.200,00	515,97
3.	- retirement insurance (pillar II): 5%	500,00	400,00	171,99
4.	Income (1-2-3)	8.000,00	6.400,00	2.751,84
5.	Personal deduction: factor 1	3.800,00	3.800,00	2.751,84
6.	Tax base (4-5)	4.200,00	2.600,00	0,00
7.	- income tax: 24%	1.008,00	624,00	0,00
8.	- income tax: 36%	0,00	0,00	0,00
9.	Total income tax (7+8)	1.008,00	624,00	0,00
10.	Local income tax: 12%	120,96	74,88	0,00
11.	Total taxes (9+10)	1.128,96	698,88	0,00
12.	NET SALARY (4-11)	6.871,04	5.701,12	2.751,84
	GROSS SALARY	10.000,00	8.000,00	3.439,84
13.	- health insurance: 15%	1.500,00	1.200,00	515,97
14.	- in case of injury: 0,5%	50,00	40,00	17,20
15.	- for employment: 1,7%	170,00	136,00	58,48
16.	TOTAL SALARY COST (1+13+14+15)	11.720,00	9.376,00	4.031,45

The calculation examples are strictly informative, and one of the tools for calculation can be found on website www.rrif.hr (the magazine "Računovodstvo, revizija i financije").

1.2. Other staff costs

The amount of tax free allowances, supports, rewards and other income is defined by the Act on Income Tax and Ordinance on Income Tax ([OG 1/2017](#)). Tax free amounts are considered expenses for profit tax payers and income tax payers (who keep financial records) when paid to employees.

Seq. nr.	Type of payment	Amount of tax free payment in HRK
I.	Allowances to employees	
1.	Transportation costs on business trip	In the amount or real expenses
2.	Cost of overnight stay on business trip	In the amount or real expenses
3.	Commuting costs	In the amount of public transportation costs
4.	Private car use in official purposes	Up to 2,00 HRK per km travelled
5.	Food costs for seasonal workers	In the amount of real costs that are addressed to employer and are settled cashless
6.	Cost of traffic, food and accommodation according EU regulations	or long-term and short-term experts financed by EU
II.	Daily allowances, field allowances and separate living allowance	
1.	Daily allowances in the country (up to 8 hours none; 8 to 12 hours ½ of daily allowance; over 12 hours full amount of daily allowance for at least 30 km distance)	170,00 HRK per day

4.	Gift to the child up to age of 15 – till December 31 st	600,00 HRK per year
5.	Gift in kind	Up to 600,00 HRK per year including VAT
6.	Occasional bonuses (Christmas bonus, Easter bonus etc.)	Up to 2.500,00 HRK per year
IV.	Supports to employees	
1.	Support for a newborn child	3.326,00 HRK
2.	Support for child's schooling	1.750,00 HRK 1.750,00 HRK per month up age of 15
3.	Employee's occupational disability	2.500,00 HRK per year
4.	Death of an employee	7.500,00 HRK
5.	Death of an employee's immediate family member	3.000,00 HRK
6.	Sick-leave of an employee over 90 days	2.500,00 HRK per year
7.	Natural disaster consequences elimination	according the employer's decision
8.	Life insurance income	in case when income tax is payed on the amount of insurance
9.	Donations for health needs	According the decision
10.	Volunteer retirement insurance	Up to 500,00 per month
V.	Rewards to employees	
1.	For:	
	10 years of service	Up to 1.500,00 HRK
	15 years of service	Up to 2.000,00 HRK
	20 years of service	Up to 2.500,00 HRK
	25 years of service	Up to 3.000,00 HRK
	30 years of service	Up to 3.500,00 HRK
	35 years of service	Up to 4.000,00 HRK
	40 years of service and every 5 additional years	Up to 5.000,00 HRK
VI.	Scholarships and awards for practical work	
1.	Scholarships for students for regular education	1.750,00 HRK per month
2.	Sports scholarships and fees for sports and specialization	1.750,00 HRK per month
3.	Student scholarships for extraordinary knowledge achievements	4.000,00 HRK per month – public tender
4.	Awards for sports achievements	20.000,00 HRK per year
5.	Fees for amateur sportsmen under special regulation	1.750,00 HRK per month
6.	Student awards during practical work (apprenticeship)	1.750,00 HRK per month
7.	Fees for work by student associations mediation	60.600,00 HRK per year

2. ELECTRICITY PRICES

According to the [Energy Act](#), the Government of the Republic of Croatia has established the tariff system for the service of electric power activities which are performed as public services for different energy consumers, i.e. different types of buyers, depending on the type, power and other elements of the delivered energy.

The connection fee for all groups of consumers is defined by the Decision on the connection price.

Depending on the demanded power, consumers pay the price of 1 kW = 1.350,00 HRK + VAT.

Where there is no infrastructure constructed, actual expenses of transformer substation construction are added at indicative prices:

- | | | |
|--------------------------|---------|-----------------|
| • Transformer substation | 630 kWh | 50.000 EUR |
| • 20 kW cabel | 1000 m | 50.000 EUR |
| • Measuring device | | 2.500-3.000 EUR |

[ELECTRIC – POWER INDUSTRY KARLOVAC](#) applies prices based on [four tariffs for entrepreneurs](#). Cost for entrepreneur is determined and invoiced per month, enlarged for the monthly fee in the amount of 65,00 HRK up to 106,00 HRK.

According to the [Act on Electricity Market](#), company HEP Operator of distribution system has two functions towards the end users:

- The first one, it is the only energy entity authorized to provide public services of electricity supply in the Republic of Croatia, which means that the HEP Operator of distribution system obligation is to provide public service of electricity supply, in a regulated manner and at a regulated price;
- The second one, it is energy entity which performs activities related to electricity distribution, concludes contracts on use of network with customers who are connected to the distribution network and performs the calculation of the fees for network use.

The following are entitled to calculation of electricity according to tariff items for tariff customers in the public service:

- All categories of household customers,
- Other eligible customers whose provider has ceased to operate, but only for a period of 30 days.

After the 30 days expiration, eligible customers who haven't found another supplier pay the consumed electricity at a cost of balancing energy. Such customers have to conclude a contract with HEP distribution system operator on energy supply service to the eligible customers at a cost of balancing energy.

The tariffs under which HEP distribution system operator performs the calculation on consumed electricity are being published in the Official Journal of the Croatian Republic – Official Gazette. Simplified and unified overview of tariff items according to the activities is shown in the following tables:

Tariff rates (prices)

Tariff rates for commercial customers are applicable according the Methodology for Determination of Amount of Tariff Rates for Electricity Distribution (OG 104/15), Decision on the Amount of Tariff Rates for Electricity Distribution (OG 134/15), Methodology for Determination of Amounts of Tariff Rates for Electricity Transmission (OG 104/15) and Decision on the Amount of Tariff Rates for Electricity Transmission (OG 134/15).

Table: Tariff rates for commercial customers applicable from 1st of January 2016

Customer category		Tariff model	Tariff element					
			Active energy			Reactive power	Excess reactive energy	Charge for metering service and supply
			JT	VT	NT			
			[HRK/kWh]	[HRK/kWh]	[HRK/kWh]	[HRK/kW]	[HRK/kvarh]	[HRK/mo]
			Tariff rates					
Commercial	High voltage	White	-	0,5	0,2	14,50	0,16	68,00
	Medium voltage	White	-	0,17	0,08	29,50	0,15	66,00
	Low voltage	Blue	0,31	-	-	-	0,15	41,30
		White	-	0,35	0,17	-	0,15	41,30
		Red	-	0,25	0,12	44,50	0,15	41,30
		Yellow (public lighting)	0,23	-	-	-	-	14,70

Tariff models

Tariff models that are available for commercial customers depend on voltage level which the network user is connected and the type of counter that is installed.

For commercial customers connected to network of medium, high and very high voltage tariff model White is determined that contains tariff rates for following tariff elements:

- active energy according the higher diurnal tariff (HRK/kWh)
- active energy according the lower diurnal tariff (HRK/kWh)
- billing peak reactive power (HRK/kWh)
- excess reactive energy (HRK/kvarh) and
- charge for metering service and supply (HRK/month)

For commercial customers connected to network of low voltage tariff models Blue, White, Red and Yellow are determined.

Tariff model Blue contains tariff rates for following tariff elements:

- active energy according the unique diurnal tariff (HRK/kWh)
- excess reactive energy (HRK/kvarh) and
- charge for metering service and supply (HRK/month)

Tariff model White contains tariff rates for following tariff elements:

- active energy according the higher diurnal tariff (HRK/kWh),
- active energy according the lower diurnal tariff (HRK/kWh),
- excess reactive energy (HRK/kvarh) and
- charge for metering service and supply (HRK/month)

Tariff model Red refers to commercial customers with the connection power over 20kW and contains tariff rates for the following tariff elements:

- active energy according the higher diurnal tariff (HRK/kWh)
- active energy according the lower diurnal tariff (HRK/kWh)
- billing peak reactive power (HRK/kWh)
- excess reactive energy (HRK/kvarh) and
- charge for metering service and supply (HRK/month)

Tariff model Yellow (public lighting) contains tariff rates for the following tariff elements:

- active energy according the unique diurnal tariff (HRK/kWh),
- charge for metering service and supply (HRK/month).

3. PRICE OF TELEPHONE SERVICES

There are six telecommunication operators in the field of fixed and mobile telecommunication in the Republic of Croatia. Connection fees to the telephone network and the monthly subscription fee depends on the operator and the model of subscription. Some operators provide fixed network services, some provide mobile services and some provide both fixed and mobile.

Fixed telephony only: OPTIMA TELEKOM (OT) d.d. Bani 75a, Buzin 10 000 Zagreb Tel.: +385 1 54 92 699 Fax.: +385 1 54 92 019 Info: 0800 0088 E-mail: info@optima-telekom.hr Web: http://www.optima.hr	Fixed telephony only: H1 TELEKOM d.d. 4. LOCAL EXPENSES OF KARLOVAC COUNTY

4.1. The municipal contribution and Utility service fee

It is paid by owners for the construction or upgrading of construction structures per m³ of the planned area. Contributions are determined according to zones, groups of activities and equipment.

CALCULATED AMOUNT FOR MUNICIPAL CONTRIBUTIONS (for legal entities – companies)

	TOWN	Contribution for m3	Business activities' privileges
1.	KARLOVAC	I zone 76,00 HRK II zone 61,00 HRK III zone 47,00 HRK IV zone 32,00 HRK	10% of price for the appropriate zone is paid for production plants and supporting facilities
2.	OGULIN	I zone 4,00 HRK II zone 3,00 HRK III zone 2,50 HRK IV zone 2,00 HRK	The buyer of property – investor in a business zone is exempt from municipal contribution for construction in the zone.
3.	DUGA RESA	I zone 16,00 HRK II zone 11,00 HRK	Startup owners of productive and non-productive scarce business activities - up to 400,00 m ³ are exempt from municipal contribution; other investors are exempt as defined by municipal government.
4.	OZALJ	I zone 22,00 HRK II zone 12,00 HRK III zone 6,00 HRK IV zone 0,00 HRK	Buildings for agriculture production are paying 50% of price. Supporting facilities with office building pay 20% of price. The newly built facilities pay 50% of price. At legalization: The payer of municipal contribution who is legalizing the building by the Decision on derived condition according the Act on illegal buildings management (Official Gazette 86/12) is obliged to pay municipal contribution of 20% of calculated amount.
5.	SLUNJ	I zone 3,00 HRK II zone 2,00 HRK III zone 1,00 HRK	-

Utility service fee

Funds for the financing of municipal activities are acquired by utility service fee paid by legal entities and natural entities in a particular town or municipality.

This refers to drainage of atmospheric waters, maintenance and cleaning of public surfaces, maintenance of non-classified roads, cemetery maintenance service etc.

Utility service fee is in general paid in settlements with developed construction land, by owners of the residential and business premises, and owners of construction land. This means that settlements must have the following access road, facilities for electric power supply and water supply.

Financial assets collected throughout utility service charge are revenues of a town or municipality budget.

Municipal activities, such as thermal energy supply, public passenger transport, waste disposal and the removal of municipal waste, retail markets, funeral services and chimney-sweeping activities are funded by the public utility service payment.

The property owner is obliged to pay these public utility services to the service provider.

The amount of utility service fee is determined by a town or municipality authority based on the level of development of construction land, facility zone location, intended use of the facility i.e. business premises.

Utility service fees are paid per commercial area unit of residential or business premises, i.e. surface area of construction land.

UTILITY SERVICE FEE ASSESSMENT

(for legal entities - companies)

	TOWN	Fee per square meter Zone coefficient Intended use coefficient	Business activities privileges
1.	KARLOVAC	Point value 0,56 HRK/m ² Zone coeff.: I = 1 point II = 0,7 points III = 0,5 points IV = 0,3 points Intended use coeff. from 1 to 10 (depending on activity) Formula: HRK = Vb x Kz x Kn x m² Vb= point value Kz= zone coeff. Kn= intended use coeff.	-75% discount for the 1 st year – start of work -50% discount for the 2 nd business year -25% discount for the 3 rd business year - for the office space and building land intended for conducting business when the business activity is not performed for more than 6 months in a calendar year, the coefficient for the period of disuse, is reduced by 50% but cannot be less than 1,00%, for business premises or 0.05% for undeveloped construction plot.
2.	OGULIN	Point value 0,243 HRK/m ² Zone coeff.: I = 1 point II = 0,85 points III = 0,75 points IV = 0,55 points Formula: HRK = Vb x Kz x Kn x m² Vb= point value Kz= zone coeff. Kn= intended use coeff.	The buyer of property – investor in the business zone has the right to discount of determined utility service payment: 75% for the 1 st business year, 50% for the second business year and 25% for the 3 rd business year.

3.	DUGA RESA	<p>0,4 HRK/m² Zone coeff: I= 1 point II=0,80 points III=0,55 points Intended use coeff from 0,05 to 10 Formula: $KN=Vb \times m^2 \times Kz \times Kn$ Vb=point value Kz=zone coeff. Kn= Intended use coeff.</p>
4.	OZALJ	<p>0,3 HRK/m² Zone coeff: IA=1 point IB= 0,90 points II=0,75 points III=0,50 points Intended use coeff from 0,05 to 5,00 Formula: $KN= B \times Kz \times Kn \times m^2$ B= point value Kz= zone coeff. Kn=Intended use coeff.</p>
5.	SLUNJ	<p>Formula: $KN=Vb \times Kz \times Kn \times Kp$ Vb= point value Kz=zone coeff Kn=Intended use coeff. Kp=commercial area -I zone – 1,00 (coeff.) -II zone -0,80 (coeff.) -III zone -0,70 (coeff.) -IV zone –is not calculated Intended use coefficient (HRK): -for the living spaces, premises used by non-profit organizations, and the premises of Military training ground “Eugen Kvaternik” = 1,00 HRK -for the garage space = 1,00 HRK -for undeveloped construction land = 0,05 HRK Business premises -for business premises used for the production industry up to 100 m² = 2,00 HRK -for business premises used for the production industry from 100 to 500 m² = 1,60 HRK -for business premises used for the production industry over 500 m² = 1,00 HRK -for business premises used for other activities up to 200 m² =4,00 HRK -for business premises used for other activities from 200 to 500 m² = 2,60 HRK -for business premises used for other activities over 500 m² =1,00 HRK -for construction land intended for other activities = 0,20 HRK -for construction land intended for other activities = 0,40 HRK Point value for the calculation of utility service fee is 0.30 HRK as of January the 1st 2007 according to the Decision of the Town Council.</p>

MUNICIPAL UTILITY SYSTEM CONNECTION PRICE

(for legal entities - companies)

TOWN	Water supply system connection fee Water price per m ³	Drainage system connection fee Drainage price per m ³	Thermal energy connection fee Price per m ³
KARLOVAC	14,00 HRK Gross developed area	10,00 HRK Gross developed area	-
OGULIN	2.433,50 HRK + actual costs + VAT	-	-
DUGA RESA	Connection price (not the fee amount) is determined based on the insight on the field (2000,00 HRK up to 12000,00 HRK)	Connection price (not the fee amount) is defined based on insight on the field.	-
OZALJ	Connection price (not the fee amount) is defined based on the insight on the field, (3.276,00 HRK + VAT and up)	Connection price (not the fee amount) is defined based on insight on the field.	
SLUNJ	-	-	-

4.2. Water, drainage and thermal energy costs

Water costs for business entities are determined by the availability of water resources and the technology of cooling process, cleaning and washing.

The price of water supply and drainage comprises several elements. The basic price comprises all processing costs, and the price is determined by the municipal company with the consent of the owner i.e. municipal bodies or town administration.

Water protection (drainage) fees are paid according to the total amount of waste water or according to the level of contamination or other changes to water, as defined by the [Decision on Water Protection Fees](#).

WATER, DRAINAGE AND THERMAL ENERGY PRICES

TOWN	DRINKING WATER	DRAINAGE	THERMAL ENERGY AND POWER
KARLOVAC	www.vik-ka.hr	www.vik-ka.hr	http://gradska-toplana.hr/hr/wp-content/uploads/2012/08/Cjenik-Gradske-toplane.pdf
OGULIN	Fixed part of price 59,53 HRK per month	Drainage 25,26 HRK per month Treatment plant 26,91 HRK per month	
	Variable part of price 15,35 HRK per m ³	Drainage 5,93 HRK per m ³ Treatment plant 7,94 HRK per m ³	
	The prices of public water services in the table are expressed without VAT and fees that are being paid according the special regulation are not calculated in these prices		
DUGA RESA	18,76 HRK per month + 5,90 HRK per m ³	16,29 HRK per month + 6,46 HRK per m ³	-
OZALJ	1m ³ = 10,90 HRK + NKV + NZV+VAT	1m ³ = 2,95 HRK + VAT	-
SLUNJ	1m ³ = 11,55 HRK + VAT 2,85 HRK Water usage 1,35 HRK Water protection 22,00 HRK +VAT is fixed part, per month	1m ³ = 2,50 HRK + VAT	-

Note: In the town of Slunj the price of water for business entities depends on their connection to drainage system. If they are connected, the price of water is 16,86 HRK/m³ (+VAT), and if they are not connected 14,11 HRK/m³ (+VAT).

4.3. Natural gas supply

In accordance with Gas Market Act ([OG 91/11](#)) and the Decision on amounts of tariff items and the tariff system for natural gas supply, tariff items are defined for the natural gas supply and distribution. Gas distribution in the Karlovac County is performed by the company:

MONTCOGIM-plinara Ltd.
 Trg Ante Starčevića 2
 10431 Sveta Nedjelja
 Tel.: + 385 1 3373 743
 Fax.: + 385 1 3373 744
 Web: <http://www.montcogim.hr>
 e-mail: montcogim@zg.t-com.hr

5. CONTRIBUTIONS, DUES AND FEES

Membership fees, contribution fees and dues are generally paid in advance during the calendar year determined in monthly or quarterly sums which are based on the final account for the previous year, and the annual dues had to be determined according to the annual balance sheet, and pay the difference or determine the amount to be returned or included in paid obligations for the next billing period.

5.1. Forests fee

According to the [Act on forests](#), with the aim of preservation of biological diversity of forests and management based on economic and ecologic sustainability, fees are determined as follows:

Fee	Entity under obligation	Basis	Rate
Fee for usage of generally beneficial forest functions	Legal and natural entities that perform business activities	Total revenue	0,0265%
Forest contribution	Legal entities which are selling products of forest exploitation	-Sales price of the product on a stump;	3,5%
		-Sales price of the product on a stump in the hilly and mountain areas and areas of special state concern	5%
Biological reproduction of forests	Hrvatske šume Ltd.	Revenue generated from sales of timber	3%

5.2. Due to the Croatian Chamber of Economy

The members of the [Croatian Chamber of Economy](#) are all legal and natural entities that perform business activities and have their headquarters in the Republic of Croatia. Legal entities become members of the Croatian Chamber of Economy by their registration in the Register of Trades, and natural entities become members through their associations.

Legal entities – members of the Croatian Chamber of Economy are obliged to pay membership fees monthly according the CCE Decision. The amount of membership fee in 2017 is defined by following criteria:

The group of criteria	The amount of monthly fee
The first group consists of members who don't exceed two of three criteria: – total assets: 7.500.000,00 HRK, – total revenue: 15.000.000,00 HRK – number of employees: 50	42,00 HRK
The second group consists of members who exceed the first group criteria, but do not exceed two of three following criteria: – total assets: 30.000.000,00 HRK, – total revenue: 59.000.000,00 HRK – number of employees: 250	1.083,00 HRK
The third group consists of members who exceed two of three criteria for the second group	3.973,00 HRK

Classification is based on data gathered out of annual financial reports of entrepreneurs for the previous year.

CCE members which are founded and registered in Court Register after January 1st 2018 are exempt from membership payment in the period of one year from the day of registration. Volunteer membership can be realized by signing the application form and by annual membership fee payment in the amount determined for the first group of criteria.

5.3. Contributions to the Croatian Chamber of Trades and Crafts

Craftsman, merchants who perform trade according the Act on Trades, natural entities, trading companies and other legal entities which are a voluntary members of the [Croatian Chamber of Trades and Crafts](#) are obliged to pay the Contribution to the Croatian Chamber of Trades and Crafts.

The amount of Chamber's contribution is prescribed in the amount of 2% of the amount of basic personal deduction according the Act on Income Tax, i.e. 76,00 HRK per month for 2018. Newly registered crafts are exempt from Chamber's contribution payment in the first year of business.

5.4. Fees for concession for exploitation of mineral resources

The parties obliged to pay the fee for mineral resources exploitation are legal entities – trading companies and natural entities – craftsmen who exploit mineral resources based on license or mining concession issued by the Ministry of economy i.e. State administration office in the local (regional) district responsible for mining activities according to [Act on Mining](#).

The amount of minimum [annual concession](#) fee is defined by the Regulation of the Government of the Republic of Croatia, proposed by the ministry in charge of mining.

5.5. Tourist Boards Membership Fees

The parties obliged to pay the Tourist Board membership fees are legal and natural entities who have their headquarters or business establishment which continuously or seasonally generate revenue in providing of catering and tourist services as well as performing activities directly related to tourism.

The amount of membership fee depends on tourist category of the settlement where headquarter or business establishment is situated, the type of activity (according to NCA 2007), and the rate level. The basis for payment is total revenue generated in the tourist destination, and is paid monthly in advance according to the calculation of business outcome for the previous year.

Entities liable to pay in the activity of catering, tourism, transportation and other (besides trade)	Rates according the tourist categories			
	A	B	C	D
The first group: NCA: 55, 56, 79, 73.11, 93.29, 50, 52.22, 51.10, 52.23, 49.31, 49.39, 66.12, 65.12, 68, 69.2, 81.30, 82.3, 93.11, 93.1, 77.21, 77.22	0,16150	0,14858	0,12920	0,11628
The second group: NCA: 52.29, 77.11, 77.34, 77.35, 49.32, 90, 92, 93.21	0,12920	0,11628	0,09690	0,08398
The third group: NCA: 45.20, 53, 58, 59, 60, 61, 62, 63, 74.1, 74.2, 74.3, 96.02, 96.01, 96.04	0,09690	0,08398	0,06460	0,05168

Entities liable to pay in the activity of trade	Rates according the tourist categories			
	A	B	C	D
The first group: NCA: 47.19, 47.25, 47.26, 47.5, 47.6, 47.71, 47.72, 47.73, 47.74, 47.75, 47.76, 47.77, 47.78, 47.79, 47.8, 47.9, 47.91, 47.99, 45.1, 45.32, 45.40, 45.30	0,03230	0,03097	0,02774	0,02584
The second group: NCA: 47.1, 47.2	0,02584	0,02451	0,02261	0,02128
The third group: NCA: 45, 45.31, 45.40, 46.2, 46.3, 46.4, 45.5, 46.7, 46.6, 46.9	0,01938	0,01805	0,01615	0,01482
The fourth group: All activities from the third group which include foreign trade	0,01292	0,00836	0,00646	0,00646

5.6. Monument Annuity

Natural and legal entities who perform business activities in stationary culture asset or in the area of cultural heritage complex are obliged to pay direct monument annuity. The amount of direct monument annuity is defined by the Decision of a town or a municipality, and varies from one to four HRK per square meter of useful business area surface which is situated in stationary cultural asset or in the area of cultural and historic unit.

The obligators of indirect monument annuity are natural and legal entities who perform the following activities according to NCA: 46.22, 46.34, 46.35, 46.37, 46.39, 46.45, 46.46, 46.48, 49.32, 51.21, 52.22, 52.23, 55.10, 56.30, 61, 64.1, 66.1, 66.1, 77.11, 77.21, 77.34, 79, 92.00, 93.19, 93.21, 46.35, 46.45, 47.26, 61, 64.1, 66.1, 92.00

Indirect monument annuity is paid at the rate of 0,05%, and the calculation base is overall revenue generated by performing activities named above.

6. TAXES, SPECIAL TAXES AND EXCISE DUTIES

Croatian tax system is compatible to European principles which equalize all tax payers, i.e. domestic and foreign natural and legal entities. Croatian tax system has many tax forms which can be found on web site (www.porezna-uprava.hr) along with the list of tax payers, tax bases, tax rates and associated Acts and Ordinances.

6.1. Value added tax

Value added tax payer is every person who performs any kind of independent business activity regardless the purpose and the result of the business activity. The one who has no headquarter, business unit, resident or temporary resident within the Republic of Croatia but performs inland deliveries of goods or services of which taxation takes place in the Republic of Croatia is also tax payer. Taxation target is the delivery of goods and providing services with payment in the country performed by tax payer, acquisition of goods with payment inside the EU as well as import of goods.

Three VAT rates are applied in the Republic of Croatia:

- 25% - general rate;
13% - accommodation services with breakfast, half board or full board in hotels or similar facilities, property rental in camps, accommodation in floating facilities of nautical tourism; newspapers and magazines issued by newspaper publisher periodically; edible oils and fats of vegetable and animal origin; children car seats; children foods; delivery of water; concert tickets; electricity delivery; public service of municipal waste collection; urns and coffins; plants and seeds; fertilizers and pesticides; animal food excluding pet food;
- 5% - all sorts of bread and milk; professional, scientific, cultural and educational books; textbooks for pedagogic education and primary, secondary and faculty education; prescribed medicines; medical equipment and orthopedic devices; cinema tickets; newspaper published by newspaper publisher who has a status of media, printed on paper, published daily; scientific magazines;

6.2. Profit tax

Profit tax payers are natural entities who perform business activities and have profit according to regulations on profit taxing if they declare to pay profit tax instead of income tax or if they are obligated due to the amount of business activities they perform. That is, if total income of 3.000.000,00 HRK is generated for the previous period or if two out of following three criteria are fulfilled: over 400.000,00 HRK of generated income; over 2.000.000,00 HRK in assets; employs over 15 employees within the previous tax period.

Tax base is the profit determined by accounting regulations and represents the difference between income and expenditure before income tax calculation, enlarged and decreased according to the Act on Profit Tax regulations.

Profit tax is being paid on determined tax base by rate of:

1. 12% if income up to 3.000.000,00 HRK is realised within the tax period, or
2. 18% if income equal or over 3.000.000,01 HRK is realised within the tax period.

6.3. Income tax

Income tax payer is natural person who has income from employment, from self-employment, from assets and property rights, income from capital, from insurance and other income.

Resident income tax base represents the overall amount of income realized inland and abroad (the principle of world income), but decreased by 3.800,00 HRK of personal deduction per month.

Two tax rates are applied for income tax calculation, depending on the amount of tax base (24% and 36%) as described in chapter Staff costs. Local income tax is calculated on the amount of income tax if it is prescribed for the municipality or the town in which the tax payer has its residence.

Income made inland and abroad are subjects to taxation for residents, and only income made abroad for non residents.

6.4. Consumption tax

Every legal and natural entity who provides catering services is obliged to pay consumption tax. Tax is paid for consumption of alcohol drinks (brandy, schnapps and strong drinks), natural wines, special wines, beer and non-alcohol drinks in catering facilities.

Tax is calculated on selling price of drink without Value Added Tax added, and tax rate is defined by town or municipality, up to 3%.

6.5. Tax on the use of public areas

Tax on the use of public areas is paid by all legal and natural entities who use public areas under conditions defined by the municipality or the town. The definition of public area, the amount of tax and payment procedure is determined by the municipality or the town.

6.6. Property transfer tax

The property acquirer is obliged to pay the property transfer tax, and the tax base is property value at the moment of acquisition. Property transfer tax rate is 4%.

Acquisition of property on which VAT is paid is not hereby considered property transfer. If tax payer who is entered in the register of taxpayers delivers construction land and/or constructed property which has not been used at all or under two years, VAT at the rate of 25% will be calculated upon the property delivery.

6.7. Holiday house tax

All legal and natural entities who are the owners of holiday houses pay the holiday house tax. The amount of tax is determined by the decision of towns or municipalities depending on the placement, age, condition of the infrastructure as well as other significant circumstances relevant for the use of holiday house, in the annual amount of 5,00 to 15,00 HRK per square meter of useful area.

6.8. Tax on profit out of games on chance and contribution for organization of games on chance

Natural entities who gain profit out of games on chance pay the tax on profit out of games on chance. Tax base for the calculation is the amount of single profit or market value of items, services or rights which make single profit, and is paid at the rate of 10 to 30%.

The organizer of games on chance pays the monthly amount of 10% of base i.e. overall amount of sold lottery tickets with all forms of lottery, i.e. the overall amount of received payments for single game. The Act on Games on Chance defines obligations of organizer of games in casinos, betting games and games on chance on machines. Organizers of games on chance are obliged to pay the fee in the amount of 5% of determined value of fund of prize games in the favour of The Croatian Red Cross.

6.9. Tax on road motor vehicles

Tax on road motor vehicles is paid by legal and natural entities who possess registered automobiles and motorcycles (up to 10 years of age). Tax is paid annually within the registration or certification of prolongation of registration card validation according the motor power in KW and the age of vehicle, from 200,00 HRK to 1.500,00 HRK for automobiles, from 50,00 HRK to 1.200,00 HRK for motorcycles and from 30,00 HRK to 120,00 HRK for four-wheelers.

6.10. Tax on vessels

Legal and natural entities who possess registered vessels are obliged to pay tax on vessels. Tax is paid annually according the Decision of responsible tax authority of the area where the vessel is registered. The amount of tax depends on the length of the vessel in meters, motor power in kW as well as whether the vessel has the cabin or is sail driven. The tax amount for vessel without the cabin varies from 100,00 HRK to 600,00 HRK, for motor driven vessel with cabin from 200,00 HRK to 5.000,00 HRK and sail driven vessel with cabin from 200,00 HRK to 4.000,00 HRK.

6.11. Special tax on motor vehicles

The subject of taxation are all personal automobiles and other motor vehicles constructed primarily for person transportation, included caravans, vans, racing cars, motorcycles, mopeds, bicycles and similar vehicles with or without side trailer, pick-up vehicles with double cabin, ATV vehicles, other motor vehicles converted into named vehicles for which special tax hasn't been calculated and paid in the Republic of Croatia.

Tax payer is every natural or legal entity, the buyer of the vehicle.

Special tax on new vehicles is determined on base of Carbon dioxide emission (CO₂) expressed in grams per kilometre, selling price of motor vehicle, motor power in kilowatts, engine volume in cubic centimetres and emission of exhaust gas. Special tax on used vehicles is paid in the amount of the rest of special tax determined on the percentage of decrease of value of the same motor vehicle on the market in the Republic of Croatia for which the same time period has passed since the first registration.

6.12. Special tax on coffee and non-alcoholic beverages

The subject of taxation are coffee (roasted coffee, extracts, essences, coffee drinks, substitutes and non-alcoholic beverages which contain coffee) and non-alcoholic beverages (water, including mineral, carbonated and with added sugar, other beverages with share of alcohol up to 1,2%, syrups, concentrates, powders and granules) which are placed on market of the Republic of Croatia.

Tax base for coffee taxing is one kilogram of netto weight. Special tax is paid on roasted coffee and roasted coffee in final product in the amount of 6,00 HRK/kg i.e. 20,00 HRK/kg for extracts, essences and coffee concentrate.

Tax base for non-alcoholic beverages taxing is one hectoliter. Special tax is paid in the amount of 40,00 HRK/hl for water and other beverages with alcohol volume up to 1,2%, 240 HRK/hl for syrup and concentrate and 400,00 HRK/100kg of net weight for powders and granules.

6.13. Tax on premiums on automobile liability insurance and premiums on all-risk insurance of motor vehicles

Tax payers are insurance companies which enter into agreement with legal and natural entities and charge premiums on automobile liability insurance and all-risk insurances of motor vehicles directly or indirectly through agents or representatives.

Tax base is insurance premium which is determined by insurance company at contract conclusion, and tax rate is 15% of agreed premium of automobile liability insurance, i.e. 10% of agreed premium of all-risk insurance of motor vehicles.

EXCISE DUTY

Croatian excise duties system is regulated by the [Act on Excise Duties](#) which determines taxing of alcohol and alcohol beverages, tobacco products, energy-generating products and electricity. Besides these products, other products for example coffee, non-alcoholic beverages and motor vehicles are also assessed.

6.14. Excise duty on alcohol and alcohol beverages

Beer, wine other beverages produced by fermentation besides beer and wine, semi-products and ethyl alcohol are considered alcohol and alcohol beverages. Still and sparkling wines are considered wines.

Excise duty is paid in the amount of 40,00 HRK for 1% volume of pure alcohol in one hectoliter of final product.

Excise duty on semi-products with 15% volume of pure alcohol is paid in the amount of 800,00 HRK per hectoliter of final product. Excise duty on semi-products with less than 15% volume of pure alcohol is paid in the amount of 500,00 HRK per hectoliter of final product.

Excise duty on ethyl alcohol is paid in the amount of 5.300,00 HRK per hectoliter of pure alcohol. Excise duty on still and sparkling wines and other drinks produced by fermentation, except beer and wine is not paid.

Excise duty on small independent breweries is within the amount of 20,00 HRK and 26,00 HRK per hectolitre depending on annual volume produced.

6.15. Excise duty on tobacco products

Cigarettes, cigars, cigarillos and tobacco for smoking are considered tobacco products..

Excise duty on cigarettes is paid in the form of special excise duty in determined amount for 1.000 pieces of cigarettes and in the form of proportional excise duty prescribed in certain percentage of cigarette retail price. Specific excise duty on cigarettes is 310,00 HRK for 1000 pieces of cigarettes and proportional excise duty in the amount of 34% of retail price. Minimum excise duty on cigarettes is 696,00 HRK for 1000 pieces of cigarettes and is paid if the amount of overall calculated excise duty is lower than prescribed.

Excise duty for fine-cut tobacco for cigarettes folding and for other types of smoking tobacco is 600,00 HRK per one kilogram.

6.16. Excise duties on energy products and electricity

The subject of taxation are energy products used for motor fuel or heating fuel as well as electricity. Petroleum products and biofuels, solid fuels (carbon and coke), natural gas and all of the other products if used for drive of motor vehicles or heating are considered energy products.

Excise duty base for energy products is 1000 kilograms of mass, 1000 litres at basic conditions of temperature of energy product of +15 degrees °C, GJ gross heat value. Excise duty base for electricity and natural gas is the amount of electricity, i.e. natural gas measured in MWh.

Amount of excise duty:

- For motor petrol used as motor fuels: leaded petrol 4.500,00 HRK/1000 l, and leaded-free petrol 3.860,00 HRK/1000 l
- For gas oil: 3.060,00 HRK/1000 l for drive, i.e. 423,00 HRK/1000 l for heating
- For kerosene-petroleum: 2.660,00 HRK/1000 l for drive, i.e. 1.752 HRK/1000 l for heating
- For LPG – liquid gas: 100,00 HRK/1000 kg for drive and heating
- For hard fuel oil: 160,00 HRK/ 1000 kg
- For natural gas: 0,00 HRK / MWh for drive, 4,05 HRK / MWh for business use and 8,10 HRK / MWh for non-business use
- For carbon and coke: 2,30 HRK /GJ for business and non-business use
- For electricity: 3,75 HRK / MWh for business use and 7,50 HRK / MWh for non-business use
- For biofuels: 0,00 HRK

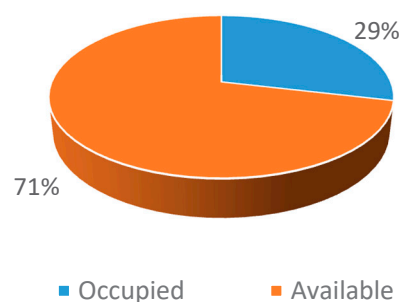

All legal and natural entities who conducts business using excise duty products is obliged to register in the Register of excise duty payers in customs office under whose jurisdiction the residence is situated. Detailed information on tax payers, duties and procedures can be found in the web site of The Ministry of Finance, i.e. The Tax Administration and Customs Office (www.porezna-uprava.hr, <https://carina.gov.hr/>)

7. Allocation: industry and crafts, commerce, storage and services, offices, agencies, banks, post office, catering and hotels

8. Infrastructural equipment:

- a) power network
- b) water supply network
- c) sewerage network
- d) gas pipeline network
- e) telecommunication network
- f) roads

9. Price per square meter and reliefs for investors:

- a) Total value of 60.000.000,00 HRK
- b) Future investors are relieved from obligation of municipal fee payment
- c) Reliefs: The area of special state concern – tax reliefs

10. Note for future investors: Planned industry and business zone is located in the area of Bosiljevo north from Highway A1 (Zagreb – Rijeka), in the vicinity of "Bosiljevo 1" junction and thereby has convenient traffic location.

THE CATALOGUE OF KARLOVAC COUNTY PROJECTS

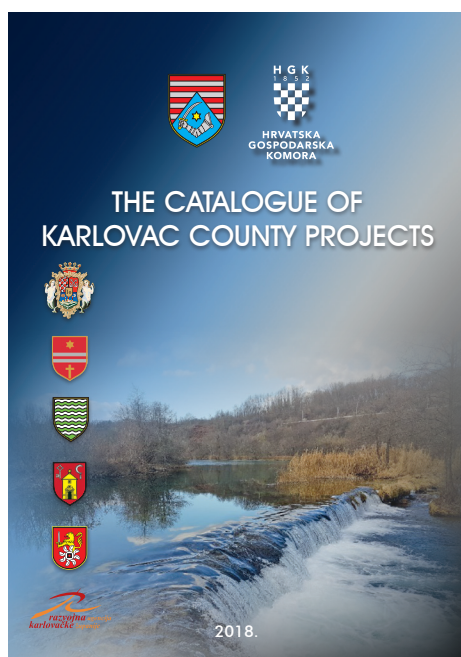

The third edition of Karlovac County project catalogue was created in order to provide, to future investors, foreign and domestic, the best possible information concerning available business zones as well as projects that are being planned inside our community, offering various forms of partnership.

On the other side, the possibility of easier project partner searching and better support of the community are being offered to catalogue project bearers.

All of the projects presented are a part of Central Electronic Investment projects of Karlovac County Database and are fitted in County Development Strategy, what will alleviate their application for national and EU fund grants.

249,41 ha of free land in business zones is available for investments, 95 projects of local self-government and entrepreneurs of overall value of over 2.885.474.868,09 HRK are presented. Considering that projects are from various sectors, we hope to attract partners' interests.

The Catalogue will also be available in electronic form, on our institutions' web sites and systematically updated in cooperation with our partners in order to continuously promote our projects in public.

EDUCATION

EDUCATION IN THE FUNCTION OF ECONOMY AND LABOR MARKET

Education institutions make sure that economy has necessary expert workers. In the Karlovac County area general and vocational schools operate, and can satisfy the needs of economy.

The development of Croatian economy implies focus on entrepreneurship, creation of new workplaces, new ways of organizing and managing new products and business processes. It inevitably implies development of knowledge and skills – new competencies as well which are important for functioning in an variable environment. It is obvious that formal education cannot follow such demands, but when looking the big picture, the sector of long-life education, represents challenge for the involvement of the Croatian Chamber of Economy as well as other competent institutions and government bodies in the creation of such education system that will respond to real needs of labor market, and that is the main precondition for reaching the competitiveness of Croatian economy.

In order to comprehend the situation in the area of Karlovac County, brief information on educational institutions and their programmes are shown below.

HIGH SCHOOL EDUCATIONAL INSTITUTIONS AND THEIR PROGRAMMES 2016./2017.:

High school Duga Resa		
Four-year program:	General Gymnasium	Media technician
Three-year program:	Gunsmith	
Gymnasium Karlovac		
General gymnasium	Gymnasium of Languages	Gymnasium of Natural Sciences and Mathematics
School of Natural Sciences Karlovac		
Nutrition technician	Technician of food	Veterinarian
Floweriest	Agriculture technician	
School of economy and tourism Karlovac		
Economist	Business secretary	Hospitality and tourism technician
School of forestry and carpentry Karlovac		
Carpentry technician - designer	Weather technician and forestry technician	Carpenter upholster

Medical school Karlovac		
Five-year program:	General care nurse / general care medical technician	
Four-year program:	Physical therapist	
School of trade and catering Karlovac		
Commercial agent	Salesman	Commercial agent for tourism and hospitality
Waiter	Cook	Confectioner
Technical school Karlovac		
Electro-technician	Computer technician for engineering	Car-mechatronic
Mechatronics technician	CNC operator	Electro-installer
Electro-mechanic	Machinery locksmith	Turner
Heating and air-condition fitter	Professional driver	
Industry and trade vocational school Karlovac		
Architecture technician	Construction technician	Car painter
Beautician	Photographer	Hairdresser
Butcher	Ceramist - paver	Dry construction fitter
Self-propelled construction machinery operator	Baker	Stonemason
Chiropody	House-painter	Group of TES programmes
Crafts and technic school Ogulin		
Electro-technician	Computer technician	Railway traffic technician
Car mechanic	Machinery locksmith	Plumber
Carpenter	Hairdresser	
Bernardin Frankopan Gymnasium Ogulin		
General Gymnasium	Hospitality and tourism technician	Economist and salesman
High school Slunj		
General Gymnasium	Computer technician	Car mechanic
Economist	Turner and machinery locksmith	Plumber
Center for education of children and youth Karlovac		
Group of TES programmes		

Music school Karlovac		
Education program of regular courses:	Primary music school in duration of 6 years	Secondary music school in duration of 4 and 6 years

UNIVERSITY OF APPLIED SCIENCES AND PROGRAM FOR 2016./2017.:

Karlovac University of Applied Sciences – professional study	
1	Hunting and nature protection
2	Mechatronics
3	Food technology
4	Nursing practice
5	Engineering
6	Textile technology
7	Catering
8	Safety and protection

Karlovac University of Applied Sciences – academic study	
1	Business management
2	Safety and protection
3	Engineering

UNIVERSITY AND PROGRAM FOR 2015./2016.:

Faculty of Economics Rijeka – Center Karlovac – Undergraduate study
Entrepreneurship

Faculty of Economics Rijeka – Center Karlovac – Graduate study
Entrepreneurship

ADULT EDUCATION

IVORA – computer school
Lingua Centar Ltd.
Minimondo j.d.o.o. for services
Obrazovni centar Marković Ltd.
Pučko otvoreno učilište Lingua
Pučko otvoreno učilište Ogulin
Pučko otvoreno učilište Petica
Pučko otvoreno učilište Pouka
Terranova Ltd. for foreign languages education and translation

SUPPLY AND DEMAND OF GOODS AND SERVICES OF KARLOVAC COUNTY ECONOMY

The following overview contains only one part of enterprises categorized according to their activities. Full information on all the enterprises in Karlovac county and Republic of Croatia as well, can be found on web site: [Biznet](http://www1.biznet.hr/HgkWeb/do/extlogon) (<http://www1.biznet.hr/HgkWeb/do/extlogon>)

Contents

Manufacture of food and beverages
Manufacture of textile and textile products
Manufacture of leather and leather products
