Iskustvo u radu ocjenjivačke komisije za dodjelu Europske nagrade 2020/2021

Rad Komisije (1)

- Temeljem prijedloga MINGOR-a – prihvatili i uključili se u rad Komisije
- Zadovoljili kriterije koje je EK postavila za članove komisije
 - Stručnjaci iz realnog sektora, predstavnici NVO-a i vladinih institucija
 - Predstavnici medija i akademске zajednice
- Pri odabiru vodi se računa o rodnoj ravnopravnosti i geografskoj pokrivenosti
- Ukupno 19 odabranih članova
- Za svaku od kategorija formirana je zasebna komisija

Rad Komisije (2)

Komisija je tijekom 2020. godine radila *online*

Predstavnik HGK bio je član Komisije za kategoriju
Upravljanje

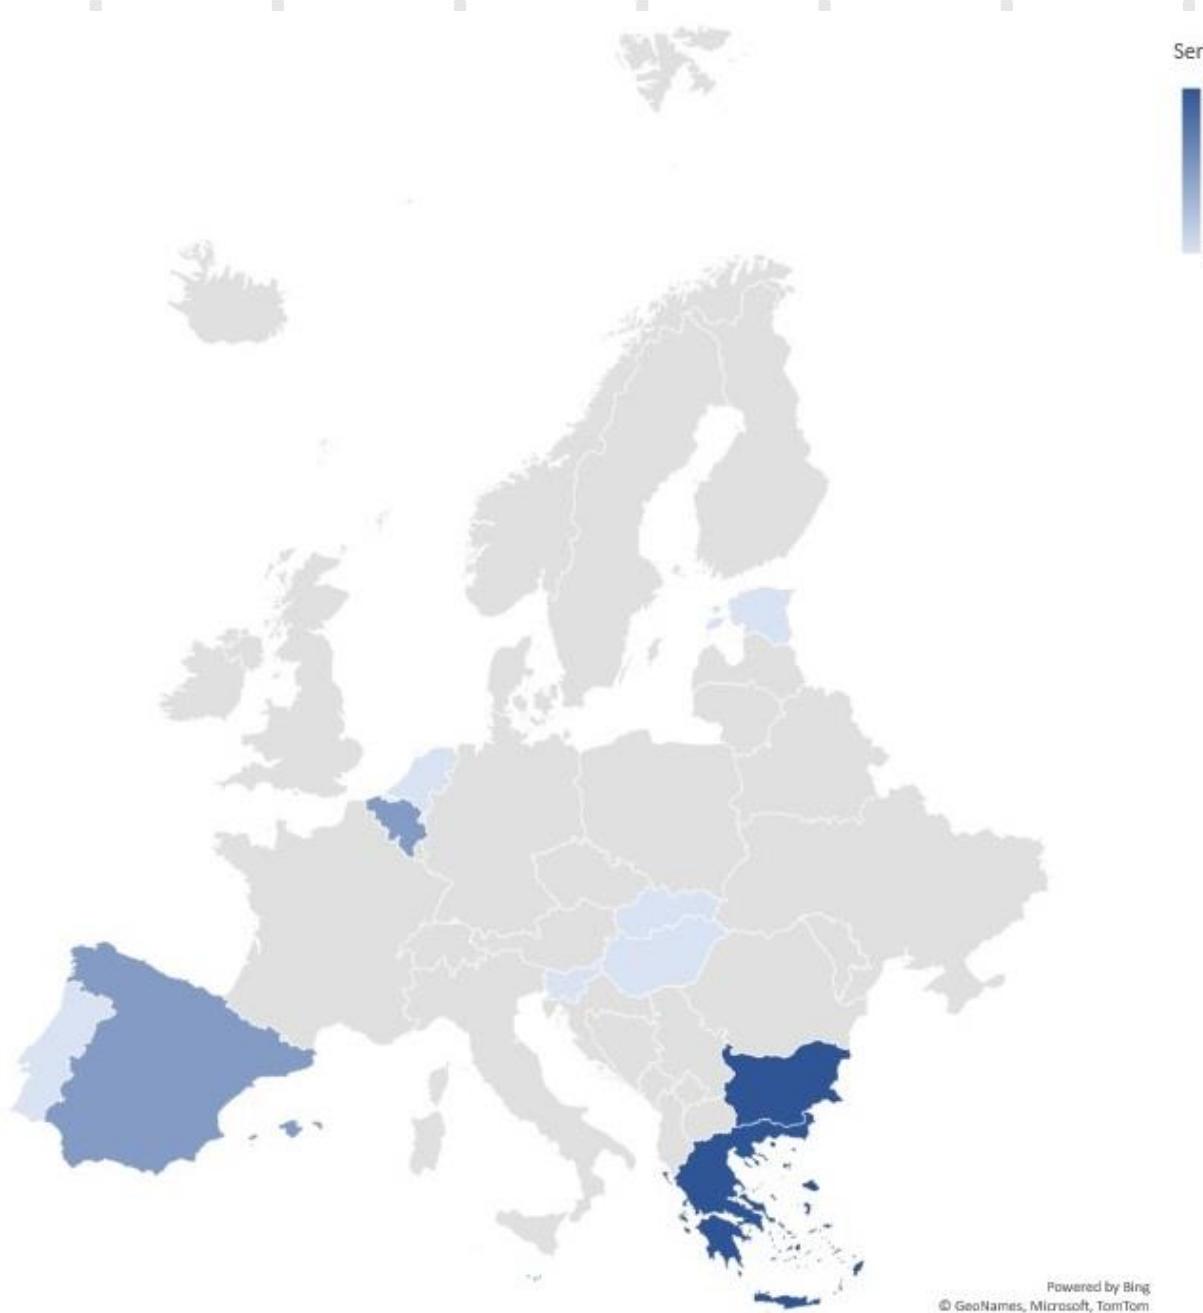

Prvi korak u radu bio je individualna ocjena svih zaprimljenih prijava

Članovi Komisije ocjene su unosili u *online* aplikaciju

Nakon individualnog unosa ocjena, članovi Komisije održali su *online* sastanke

Po završetku ovog procesa, odabrani su pobjednici u ovoj kategoriji, finalisti (drugoplasirani) i „zvijezde u usponu”

The Management Award (Medium and Large Companies)

 **WINNER** 

Naturgy is an international utility company that provides a service to over 18 million customers, supplying them with sustainable energy (electricity, gas, and services). Naturgy sees the environment as a vector for transformation, together with the Strategic Plan 2018-2022 which is aligned with European policies on energy, climate, circular economy, and biodiversity – in short, the pillars of the European Green Deal. In the past 2 years, Naturgy has improved externally audited environmental indicators and reduced its environmental impact. Their creation of shared values goes hand-in-hand with better economic results, which resulted in their inclusion in, and leadership of, Sustainability Index lists. Their innovative and environmental approach to management and tools has resulted in uniform, standardised actions in over 1000 installations and 325,00 km of energy networks worldwide.

JURY'S VERDICT:

"The jury was particularly impressed by the maturity of the management plan which has changed the trajectory of the company. Naturgy has learned from past experience, set goals and implemented them successfully. The jury also praised the depth and maturity of the integration of environmental management throughout the business. Naturgy has drawn on strengths from each area making environmental management an integral part of their USP to successfully market the company."

"The jury considers TecnoResiduos R3 to be an ambassador for waste management in the construction and office sector. The jury was particularly impressed by the initiative that TecnoResiduos R3 took to attain the first EMAS certificate in Europe."

KOMENTAR I PREPORUKA

- Posebnu pažnju treba posvetiti kako postići stratešku integraciju politika zaštite okoliša i održivog razvoja u svakodnevni život tvrtki i kako poslovati u skladu s tim. Iz prijava je bilo jasno da mnoge tvrtke to još uvijek to ne razumiju u potpunosti.
- Tvrtke se u okviru svojih prijava navodile izvrsne projekte koje su provele, međutim potpuna integracija i svakodnevno poslovanje u skladu s načelima održivosti trebali bi postati BAU
- Gotovo za sve podnositelje prijava, evidentno je bilo nerazumijevanje biološke raznolikosti i kako njihovo poslovanje utječe na biološku raznolikost.
- Prioritet za nacionalne koordinatorе, poslovna udruženja i Europsku komisiju u budućnosti trebalo bi biti obrazovanje tvrtki.

Zahvaljujem na pažnji.
